ITEM 10

AN ORDINANCE AMENDING SECTION 1.2 OF THE CHARTER OF THE CITY OF NAPLES RELATING TO THE BOUNDARIES OF THE CITY; AND PROVIDING AN EFFECTIVE DATE.
 PURPOSE: TO ANNEX LOT 19 AND THE SOUTH 65' OF LOT 20, NORTH NAPLES ESTATES, TO THE CITY OF NAPLES AT THE REQUEST OF THE PROPERTY OWNERS AND TO REDEFINE THE BOUNDARIES OF THE CITY OF NAPLES TO INCLUDE SAID PROPERTY.

Title read by City Attorney Rynders.

City Attorney Rynders noted that he had read the corrected legal description of the property. City Manager Jones noted that one of the petitioners' reason for requesting annexation could be that they were adjacent to City property on two sides. Citizen James E. Conroy stated the reason for his presence was to confirm the correct legal description of the property.

AGENDA ITEM #7-D
2/5/86

City of Naples

--- MEMO ---

TO: HONORABLE MAYOR AND MEMBERS OF CITY COUNCIL

FROM: CITY MANAGER FRANKLIN C. JONES

SUBJECT: REQUEST FOR POSTPONEMENT OF AGENDA ITEM

DATE: JANUARY 30, 1985

We have received the attached request from the attorney representing the petitioner under Agenda Item 7-d for postponement of Council consideration and action until the regular meeting of March 5. We have enclosed the Planning Advisory Board recommendation and other related materials but will hold the diagrams until that meeting. If any you wish to review the diagrams, however, before we distribute the March 5 packet, please let us know.

Sincerely,

Franklin C. Jones
City Manager

City of Naples

--- MEMO ---

TO: Honorable Mayor and Members of the City Council

FROM: Franklin C. Jones, City Manager

SUBJECT: Adoption of State-required Coastal Construction Code

DATE: January 23, 1986

Background:

The State Legislature recently passed the "Coastal Zone Protection Act of 1985." This act requires the City of Naples to establish a "coastal building zone" within which increased minimum standards for construction will apply. This zone is generally that portion of the city from the Gulf of Mexico to a point 1500 feet east of the State Coastal Construction Control Line.

The State Department of Community Affairs has prepared the attached "Model Coastal Construction Code" for our adoption. This code meets the requirements of the new law. We have proposed certain minor modifications to the model code so that it is applicable to Naples. We must be in compliance with the new law by March 1, 1986.

The intent of the law is to require that all new construction and modifications to existing structures be designed and built in such a manner so as to "minimize damage to life, property and the natural environment."

The major differences between our present code provisions and the proposed coastal code are as follows:

1. An architect or professional engineer, registered in the State of Florida, will have to certify that design plans and specifications for all buildings to be built in the coastal building zone are in compliance with the requirements of the coastal code.

We presently require that plans and specifications for residential buildings with three or more units, and for all commercial buildings, be prepared by an architect or engineer.

2. All major structures in the coastal zone will have to be designed to withstand 140 mph wind speeds.

We presently require such structures to withstand 120 mph wind speeds.

3. There are a variety of construction standards that must be met but most of these are already required by the Federal Emergency Management Administration (FEMA) through our participation in the Federal Flood Insurance Program.

We have also attached copies of correspondence from the State Department of Community Affairs dated January 12, 1986 and November 12, 1985, as additional information.

Because of the limited time we have to adopt this code and the limited discretion we have in the matter, we have not distributed the Code for general comment nor will we schedule a discussion of the proposed code with the Board of Appeals. We have sent each board member and the Collier County Contractors Association a packet of information and have invited their comments. The city's Board of Appeals handles appeals relative to our building-related codes, so we typically invite their comments on proposed building codes.

Staff Recommendation:

We recommend adoption of the attached "Coastal Construction Code" as a part of Chapter 8 of the Municipal Code at first reading of an ordinance at the City Council meeting on February 5, 1986 and final adoption and second reading of the ordinance at the Council meeting on February 19, 1986.

Prepared by:

Roger J. Barry
Community Development Director

Respectfully submitted,

Franklin C. Jones

City of Naples

--- MEMO ---

TO: HONORABLE MAYOR AND MEMBERS OF CITY COUNCIL

FROM: CITY MANAGER FRANKLIN C. JONES

SUBJECT: INTERIM AGREEMENT WITH COLLIER COUNTY REGARDING SEWER SERVICE TO "THE COTTAGES"

DATE: JANUARY 28, 1986

BACKGROUND: On December 4, 1985, City Council passed Resolution No. 85-4887 which approved a sewer main extension for a project on Bailey Lane called "The Cottages". A copy of this resolution is attached for your review.

ANALYSIS: As this project is located outside the City's existing sewer service area, the Collier County Utility Department is requiring an interim agreement with the City on this connection. This agreement is necessary prior to the issuance of building permits by the County.

The agreement basically provides that the City will service the project until Collier County completes its proposed wastewater treatment facilities in the Pine Ridge area. The agreement is consistent with our discussions and communications with Collier County regarding this particular project.

RECOMMENDATION: I respectfully request City Council authorize the Mayor and City Clerk to execute the attached interim agreement between the City and Collier County regarding sewer service for "The Cottages".

Respectfully submitted,

Franklin C. Jones
