PURCHASING: RESOLUTION NO. 87-5284 A RESOLUTION AWARDING BID NO. 87-67 FOR THE PLANTING OF STREET TREES AT TWO LOCATIONS WITHIN THE CITY; AUTHORIZING THE CITY MANAGER TO ISSUE A PURCHASE ORDER THEREFOR; AND PROVIDING AN EFFECTIVE DATE. Title read by City Attorney Rynders. In response to Mr. Graver, Community Services Director Holley advised that although City employees are utilized on more complicated projects, they could also work on this project. He pointed out, however, that the staff has compared costs of contractors versus City personnel and that contractor prices are very competitive. Community Services personnel, he added, are taking steps to improve through new landscaping such facilities as Lowdermilk Park, parking lot #1, Fleischmann Community Center and the Police Athletic League	CITY MANAGER JONES: None.

Title read by City Attorney Rynders. PUBLIC HEARING: Opened: 9:23 a.m.						
Closed: 9:30 a.m. Citizen Dale Clumskey said that he believes although this project deserves a commendation, he was concerned about access to the Third Street area stating that the area is already congested. Many businesses in the Third Street area, he said, are concerned that it may be someday closed to vehicular traffic and that there has in the past been a proposal to make Third Street into a pedestrian mall. He asked for assurances that this would not happen. Mayor Putzell replied that the Council would consider such a matter when it occurs; until then, it is purely hypothetical.						
In response to Mr. Clumskey's comments, Community Development Director Barry advised that the City has never received a formal request to close Third Street which would take City Council action. Relevant to the traffic, Mr. Barry said that the City Engineer has advised that it would not be necessary for this project to make any perimeter access changes, although, he did require that access to off-streets be improved. Mr. Graver asked if there was an alley vehicular access on Third Street and Mr. Barry responded that there was not.

Tr. Graver explained his negative vote because the barking lot is currently over half used by the filler Corporation and advised that the real issue as overall parking problems in the area.						
for. Crawford cited the Code provision which states that "R-3.12" parking lots are non-commercial and this is a commercial lot. Mr. Barry, however, clarified that a parking lot is not considered commercial unless it is commercially operated for a profit by charging parking fees. ORRESPONDENCE AND COMMUNICATIONS:						
lay 20, 1987, the public was asked to let the council know their views regarding acquisition of he Troy Property. He quoted the total responses rom residents in the City as 165: 77 in favor of he Troy purchase, 88 opposed (Attachment #4).	e ou cana					
r. Barnett suggested that a mailing or notice be costed asking people to vote yes or no for this equisition. Mr. Richardson, however, pointed out hat unless all the facts were presented, the people could not be able to determine which way to vote. We said that he believed it should go to court before any decision regarding eminent domain was considered.			55 56 75 157 154 156 715			
rs. Anderson-McDomald said that she believed that he Council should further explore the pros and consoft this acquisition and pointed out that there had seen no discussion of what the land will actually be sed for.						
r. Graver expressed reservations concerning a 10-million outlay and said that the citizens should be better informed regarding taxes levied for such surchase. Mr. Graver noted that a successful awsuit could decrease the City's cost of the land.						
ayor Putzell said that the Council must decide hether to go forward with the acquisition through minent domain or leave it up to the court's ecision in the pending lawsuit. He also pointed ut that the outcome of the lawsuit would determine he zoning of the property.						
r. Crawford said that he feels this is a nebulous roposal for an inappropriate site. He said he had ontacted Neapolitan Enterprises, Inc., and asked hem to reconsider some of their thoughts regarding ther property near Jungle Larry's and suggested hat the Council discuss the purchase of that roperty for green space.

Mr. Bledsoe said that he did not believe the Council should continue with eminent domain if the majority was opposed.						
Mayor Putzell said that while the Council is obligated to look ahead and be concerned about the future of the community, if the public is not in favor of the acquisition, Council must respect their wishes.						
Mayor Putzell further noted figures from Tax Collector Guy Carlton's office and advised that a property's assessed taxable value of \$100,000 would result in a total tax burden of \$1,350.71, including City, County, school and other district taxes. The City's portion of that total, he said, is approximately 10%; therefore, the hypothetical added tax burden on such property would be in the order of 4%.						
Citizen Egon Hill, resident of the Moorings, called the Troy property a green casis in a center of activity and said he supported acquisition.						

City Manager Jones advised that the next workshop is scheduled for June 10, 1987. He pointed out that because of the shifting of meetings in July, the next workshop in July would be held on July 22, 1987.

26 May 1987

From: M. J. "Casey" Miller

To: Members of the Naples City Council

The purpose of this Memorandum is to acquaint you with the facts surrounding the original paving of the Keystone Building parking lot.

When the Keystone Building was built, it was designed and intended for two stories, and we realized that when the second story was added we would need additional parking.

In 1964, I purchased lots 7, 8, and 9, Block 16. Tier 4, so we would have adequate parking when the second story was added.

The same year, we decided to pave the lots. According to my records. I paid \$709.16 for 459 yards of fill, \$1,772.00 to blacktop one-half of the lot and to have the lines painted and curb stops installed. I also paid \$25.25 for the "RESERVED" name signs to be painted. All of this took place prior to any construction on any of the adjoining properties (contrary the statement made by someone in the Cambridge Club that the lot was paved overhight five years ago).

Twenty-five parking spaces were marked off with the realization that we could have the other half to provide adequate parking when the second story was constructed.

This was done with the full knowledge and consent of the City.

Over the years, especially during the "season", we have had numerous problems keeping "outsiders" from using our private lot. The proposed parking plan will enhance our ability to control the parking in this area.

Months ago, we decided that the time was right to construct the second story, so we approached Moyer and Dyehouse Architects to take the necessary steps so that it could be cleared with the City. Since then we have been working closely with the City staff. Little did we dream that there would be opposition to improving what is now an unattractive lot into a nicely landscaped area.

As everyone knows, parking is very inadequate up and down the alley and to the best of my knowledge, we are the only ones who have attempted to think ahead and provide adequate parking - at considerable expense, I might add. In 1985, the taxes paid on the lot were \$1,257.17, and the lot is appraised at \$97.100.00.

. We have a beautiful rendering of what the building will look like after construction is completed, and the whole idea seems to fit in nicely with what R/UDAT has in mind for 5th Avenue.

Our petition has already been approved by the Planning and Zoning Epard after a full public hearing. The City staff has also recommended approval and we would like to go ahead with the clans as soon as possible.

Thank you for taking time to allow me to present these facts.
