Wastewater Collections
Mike Whitcavage, Utilities Analyst
Bill Whitis, Crew Leader
Tom Marshky, Equipment Operator

LOCATION:

Gulfshore Blvd, between 2nd Ave S. & 3rd Ave. S.

Utilities Manager, Dan Mercer introduced Test and Seal Crew staff and their positions.

Water Distribution and Wastewater Collections Superintendent, Al Monteleone explained the equipment and process used to televise sewer lines.

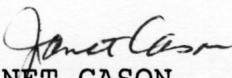

Equipment Operator Tom Marshky began process by starting the camera up the 10" sewer line with explanations of what they were seeing.

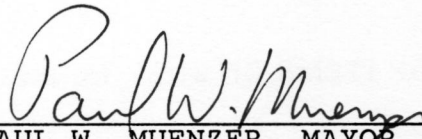

Council Member Alan Korest asked about using the data to schedule repairs to damages lines and he would like to see the repairs (grouting) as they were being made.

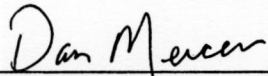

Council Member Ron Pennington asked about the information we were receiving and what we did with it? Would like to see grouting process in action too.

Water Distribution and Wastewater Collection Superintendent Al Monteleone explained how we used the information by scheduling necessary repairs to be accomplished by staff or whether it had to be contracted out. Mr. Monteleone said he would set up a presentation and notify the Council when grouting will be performed by staff so they can see the process in action.
