**ARTICLE THREE  
OWNER'S RESPONSIBILITIES**

3.1. The Owner shall designate in writing a project coordinator to act as OWNER's representative with respect to the services to be rendered under this Agreement (hereinafter referred to as the "Project Coordinator"). The Project Coordinator shall have authority to transmit instructions, receive information, interpret and define OWNER's policies and decisions with respect to CONSULTANT's services for the Project. However, the Project Coordinator is not authorized to issue any verbal or written orders or instructions to the CONSULTANT that would have the effect, or be interpreted to have the effect, of modifying or changing in any way whatever:

- (a) The scope of services to be provided and performed by the CONSULTANT hereunder;

3.4. OWNER shall be responsible for the acquisition of all easements, property sites, rights-of-way, or other property rights required for the Project and for the costs thereof, including the costs of any required land surveys in connection with such acquisition.

## ARTICLE FOUR TIME

4.1. Services to be rendered by CONSULTANT shall be commenced subsequent to the execution of this Agreement upon written Notice to Proceed from OWNER for all or any designated portion of the Project and **shall be performed and completed by February 2007** in accordance with the Project Schedule attached hereto and made a part hereof as Exhibit C. Time is of the essence with respect to the performance of this Agreement.

4.2. Should CONSULTANT be obstructed or delayed in the prosecution or completion of its services as a result of unforeseeable causes beyond the control of CONSULTANT, and not due to its own fault or neglect, including but not restricted to acts of God or of public enemy, acts of government or of the OWNER, fires, floods, epidemics, quarantine regulations, strikes or lock-outs, then CONSULTANT shall notify OWNER in writing within five (5) working days after commencement of such delay, stating the cause or causes thereof, or be deemed to have waived any right which CONSULTANT may have had to request a time extension.

4.3. No interruption, interference, inefficiency, suspension or delay in the commencement or progress of CONSULTANT's services from any cause whatsoever, including those for which OWNER may be responsible in whole or in part, shall relieve CONSULTANT of its duty to perform or give rise to any right to damages or additional compensation from OWNER. CONSULTANT's sole remedy against OWNER will be the right to seek an extension of time to its schedule. This paragraph shall expressly apply to claims for early completion, as well as claims based on late completion. Provided, however, if through no fault or neglect of the CONSULTANT, the services to be provided hereunder have not been completed within **12 months of** the date hereof, the CONSULTANT's compensation may be equitably adjusted, with respect to those services that have not yet been performed, to reflect the incremental increase in costs experienced by CONSULTANT after expiration of said **12 month period**.

4.4. Should the CONSULTANT fail to commence, provide, perform or complete any of the services to be provided hereunder in a timely and reasonable manner, in addition to any other rights or remedies available to the OWNER hereunder, the OWNER at its sole discretion and option may withhold any and all payments due and owing to the CONSULTANT until such time as the CONSULTANT resumes performance of its obligations hereunder in such a manner so as to reasonably establish to the OWNER's satisfaction that the CONSULTANT's performance is or will shortly be back on schedule.

**ARTICLE FIVE  
COMPENSATION**

5.1. Compensation and the manner of payment of such compensation by the OWNER for services rendered hereunder by CONSULTANT shall be **an amount not to exceed \$143,253.00** as prescribed in Exhibit B, entitled "Basis of Compensation", which is attached hereto and made a part hereof.

**ARTICLE SIX  
OWNERSHIP OF DOCUMENTS**

6.1. Upon completion or termination of this Agreement, all records, documents, tracings, plans, specifications, maps, evaluations, reports, computer assisted design or drafting disks and other technical data, other than working papers, prepared or developed by CONSULTANT under this Agreement shall be delivered to and become the property of OWNER. CONSULTANT, at its own expense, may retain copies for its files and internal use. OWNER agrees to indemnify and hold harmless CONSULTANT with respect to any claim, loss or damage, including attorneys fees incurred by CONSULTANT due to the OWNER's use of said records, documents, tracings, plans, specifications, maps, evaluations, reports, computer disks and other technical data on some other project unless such use is authorized by CONSULTANT.

6.2. With respect to and in consideration for the indemnification provided by OWNER in paragraphs 6.1. above, CONSULTANT agrees to pay to OWNER \$10.00, the sufficiency and receipt of which is acknowledged through the signing of this Agreement.

**ARTICLE SEVEN  
MAINTENANCE OF RECORDS**

7.1. CONSULTANT will keep adequate records and supporting documentation which concern or reflect its services hereunder. The records and documentation will be retained by CONSULTANT for a minimum of five (5) years from the date of termination of this Agreement or the date the Project is completed, whichever is later. OWNER, or any duly authorized agents or representatives of OWNER, shall have the right to audit, inspect and copy all such records and documentation as often as they deem necessary during the period of this Agreement and during the five (5) year period noted above; provided, however, such activity shall be conducted only during normal business hours.

**ARTICLE EIGHT  
INDEMNIFICATION**

8.1. The CONSULTANT (or Design Professional) agrees to indemnify and hold harmless the City, and its officers and employees, from liabilities, damages, losses, and costs, including, but not limited to, reasonable attorneys' fees, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the Consultant and other persons employed or utilized by Consultant in the performance of the contract.

8.2. CONSULTANT acknowledges that the general conditions of any contract shall include language, satisfactory to the OWNER's attorney, in which the contractor agrees to hold harmless and to defend

OWNER, its agents and employees from all suits and actions, including attorney's fees, and all costs of litigation and judgments of any name and description arising out of or incidental to the performance of the construction contract or work performed thereunder.

## **ARTICLE NINE INSURANCE**

9.1. CONSULTANT shall obtain and carry, at all times during its performance under the Contract Documents, insurance of the types and in the amounts set forth in EXHIBIT D to this Agreement.

## **ARTICLE TEN SERVICES BY CONSULTANT'S OWN STAFF**

10.1. The services to be performed hereunder shall be performed by CONSULTANT's own staff, unless otherwise authorized in writing by the OWNER. The employment of, contract with, or use of the services of any other person or firm by CONSULTANT, as independent consultant or otherwise, shall be subject to the prior written approval of the OWNER. No provision of this Agreement shall, however, be construed as constituting an agreement between the OWNER and any such other person or firm. Nor shall anything contained herein be deemed to give any such party or any third party any claim or right of action against the OWNER beyond such as may otherwise exist without regard to this Agreement.

## **ARTICLE ELEVEN WAIVER OF CLAIMS**

11.1. CONSULTANT's acceptance of final payment shall constitute a full waiver of any and all claims, except for insurance company subrogation claims, by it against OWNER arising out of this Agreement or otherwise related to the Project, except those previously made in writing and identified by CONSULTANT as unsettled at the time of the final payment. Neither the acceptance of CONSULTANT's services nor payment by OWNER shall be deemed to be a waiver of any of OWNER's rights against CONSULTANT.

## **ARTICLE TWELVE TERMINATION OR SUSPENSION**

12.1. CONSULTANT shall be considered in material default of this Agreement and such default will be considered cause for OWNER to terminate this Agreement, in whole or in part, as further set forth in this section, for any of the following reasons: (a) failure to begin work under the Agreement within the times specified under the Notice(s) to Proceed, or (b) failure to properly and timely perform the services to be provided hereunder or as directed by OWNER, or (c) the bankruptcy or insolvency or a general assignment for the benefit of creditors by CONSULTANT or by any of CONSULTANT's principals, officers or directors, or (d) failure to obey laws, ordinances, regulations or other codes of conduct, or (e) failure to perform or abide by the terms or spirit of this Agreement, or (f) for any other just cause. The OWNER may so terminate this Agreement, in whole or in part, by giving the CONSULTANT seven (7) calendar days written notice.

12.2. If, after notice of termination of this Agreement as provided for in paragraph 12.1 above, it is determined for any reason that CONSULTANT was not in default, or that its default was excusable, or

that OWNER otherwise was not entitled to the remedy against CONSULTANT provided for in paragraph 12.1, then the notice of termination given pursuant to paragraph 12.1 shall be deemed to be the notice of termination provided for in paragraph 12.3 below and CONSULTANT's remedies against OWNER shall be the same as and limited to those afforded CONSULTANT under paragraph 12.3 below.

12.3. OWNER shall have the right to terminate this Agreement, in whole or in part, without cause upon seven (7) calendar day's written notice to CONSULTANT. In the event of such termination for convenience, CONSULTANT's recovery against OWNER shall be limited to that portion of the fee earned through the date of termination, together with any retainage withheld and any costs reasonably incurred by CONSULTANT that are directly attributable to the termination, but CONSULTANT shall not be entitled to any other or further recovery against OWNER, including, but not limited to, anticipated fees or profits on work not required to be performed.

12.4. Upon termination, the CONSULTANT shall deliver to the OWNER all original papers, records, documents, drawings, models, and other material set forth and described in this Agreement.

12.5. The OWNER shall have the power to suspend all or any portions of the services to be provided by CONSULTANT hereunder upon giving CONSULTANT two (2) calendar days prior written notice of such suspension. If all or any portion of the services to be rendered hereunder are so suspended, the CONSULTANT's sole and exclusive remedy shall be to seek an extension of time to its schedule in accordance with the procedures set forth in Article Four herein.

### **ARTICLE THIRTEEN TRUTH IN NEGOTIATION REPRESENTATIONS**

13.1. CONSULTANT warrants that CONSULTANT has not employed or retained any company or person, other than a bona fide employee working solely for CONSULTANT, to solicit or secure this Agreement and that CONSULTANT has not paid or agreed to pay any person, company, corporation, individual or firm, other than a bona fide employee working solely for CONSULTANT, any fee, commission, percentage, gift or any other consideration contingent upon or resulting from the award or making of this Agreement.

13.2. In accordance with provisions of Section 287.055, (5)(a), Florida Statutes, the CONSULTANT agrees to execute the required Truth-In-Negotiation Certificate, attached hereto and incorporated herein as Exhibit E, stating that wage rates and other factual unit costs supporting the compensation are accurate, complete and current at the time of the Agreement. The CONSULTANT agrees that the original Agreement price and any additions thereto shall be adjusted to exclude any significant sums by which the OWNER determines the Agreement price was increased due to inaccurate, incomplete, or non-current wage rates and other factual unit costs. All such adjustments shall be made within one (1) year following the end of this Agreement.

### **ARTICLE FOURTEEN CONFLICT OF INTEREST**

14.1. CONSULTANT represents that it presently has no interest and shall acquire no interest, either direct or indirect, which would conflict in any manner with the performance of services required hereunder. CONSULTANT further represents that no persons having any such interest shall be employed

**EXHIBIT A  
SCOPE OF SERVICES**

Exhibit A consists of the following component Parts:

A.1.1. **Scope of Services will consist of only the below Services:**

**Attachment "A"**  
**Scope of Services & Project Schedule**  
**City of Naples Comprehensive Pathways Plan**

**Task 1 – Public Involvement**

**Public Meeting #1: Informational Meeting, Presentation and Visioning.** This meeting will be to inform the public about the project, provide an informational presentation that will describe the scope of the project, what types of facilities and outcomes can come from it, and conduct small group visioning exercises that will be designed to gain input that will be considered during the project. The Consultant will utilize the Nominal Group Technique for the small group exercise and the input will be summarized for input into the project. The Consultant will prepare the informational presentation. Maps will also be available and small group participants will be asked to mark them up with points of interest, schools with facility issues, areas that have high or specialized bicycle and pedestrian traffic, etc. Groups will be asked to "report out" at the end of the meeting and an email list of participants will be generated based on the meeting sign in sheets. The results of this meeting will be summarized by the Consultant.

**Public Meeting #2: Open House Workshop.** Upon completion of the data collection efforts the public will be invited to an open house workshop to review a series of maps and other information that depicts the existing conditions of the current bicycle and pedestrian network. The Consultant will make a presentation to highlight the findings from the existing conditions efforts. The summarized input from Public Meeting #1 will also be presented and provided as a handout. Maps provided will include mapped crash data, existing and planned bicycle and pedestrian facilities, traffic data and network maps. Participants will be asked to mark up the maps and comment forms will be provided where the public can provide specific input on the either the existing conditions or the need for future facilities. In addition, a summary of the existing City policies, ordinances and comprehensive plan and land development code as they relate to bicycle and pedestrian facilities will be summarized and provided at this workshop for public comment. The results of this meeting will be summarized by the Consultant.

**Public Meeting #3: Open House Workshop.** Upon completion of the draft Comprehensive Pathways Plan, the Consultant will conduct an open house format meeting to present the draft plan to the public. Participants will be asked at this meeting to "tweak" the overall plan and make more specific implementation recommendations. The project alternatives will be presented and the public will have the opportunity to prioritize the alternatives using the "Money Game" which provides participants the opportunity to make choices as to which portions of the Plan should be given first priority. This will also be intended to illustrate to the public that there are limited public funds for investment. Plan implementation maps will also be available for public comment and will be intended for participants to mark up with specific comments. City policies will also be provided for comment. The results of this meeting will be summarized by the Consultant.

The Consultant will prepare for and attend one (1) City Council Meeting to present the draft plan.

For the public involvement task, the Consultant will prepare all agendas and meeting notification flyers.

REVISED 7/18/02

The Consultant will compile feedback from public involvement efforts that determines specific deficiencies and community perceptions as they pertain to issues relevant to bicycle and pedestrian travel.

*Technical Memorandum #1: Public Involvement Plan*

The Consultant will prepare and submit to the City for review and approval a Technical Memorandum identifying specific public involvement procedures to be utilized throughout the project, as well as the types of documentary materials to be developed for public consumption during and after completion of the project. The Consultant will provide an electronic file to the City in PDF format which will be incorporated in the final report at a later date.

**Task 2 – Development of Evaluation Methodology**

The Consultant shall develop criteria and a methodology for the collection and analysis of bicycle and pedestrian data. This methodology will also aid in the evaluation and prioritization of bicycle and pedestrian improvements. The Consultant is to demonstrate a technically sound and systematic procedure for the collection, tabulation, evaluation, and organization of all data to be used for the study.

*Technical Memorandum #2: Study Methodology*

The Consultant will prepare and submit to the City for review and approval a Technical Memorandum describing the criteria and technical methodology to be used in the study. The Technical Memorandum will include clear and understandable documentation of the methodology and specific application examples relevant to the study area. The Consultant will provide an electronic file to the City in PDF format which will be incorporated in the final report at a later date.

### **Task 3 – Inventory of Existing Conditions and Data Collection**

The Consultant shall collect and present appropriate demographic, socioeconomic, land use, transportation, and comprehensive plan data necessary for assessing the study area's bicycle and pedestrian transportation needs from existing sources. The information gathered shall be presented in a concise, organized, and understandable format, either mapped or in tabular form, for public consumption.

Base data to be collected for this project will include the following:

An inventory of existing and planned bicycle and pedestrian networks and facilities will be developed using existing data provided by the City. The Consultant will check these data in the field for the study area.

Roadway characteristics will be mapped from the GIS data provided by the client including the physical characteristics such as where bicycle lanes are designated, lane widths, the existence of paved shoulders, speed limits, natural and man-made barriers, where constrained corridors exist, and access to other modes of transportation such as transit.

Bicycle and pedestrian accident data will be compiled. These data will include detailed information as to the conditions that existed when accidents occurred. Bicycle and pedestrian crash data will be provided by the City from existing sources for crashes that have occurred within the last five years.

The Consultant will map land use characteristics including locations of schools, parks, playgrounds, and other recreational cultural areas which are accessible destinations for bicyclists and pedestrians. These maps will be developed using the data sources described above from existing sources provided by the City.

The Client will be responsible for providing all existing roadway network information including the facility types, land use (both existing and future), zoning, and parcel data in GIS at the inception of the project. All existing traffic count data will also be provided to the Consultant in an electronic format.

#### *Technical Memorandum #3: Inventory of Existing Conditions and Data Collection*

The Consultant will prepare a Technical Memorandum summarizing the collected data for the study area. All data shall be presented in an organized, concise, and understandable format, either mapped, graphed, and/or in tabular form for public consumption. The Consultant will provide an electronic file to the City in PDF format which will be incorporated in the final report at a later date.

### **Task 4 – Analysis of Existing Conditions**

Using feedback from the general public from Task 1 and from data collected in Task 3, the Consultant will identify major bicycle and pedestrian issues, needs, constraints and opportunities within the study area. This analysis should address each of the following categories:

Crash data to determine hazardous intersections or locations will be compiled from existing sources. This analysis shall consider motorized and non-motorized vehicle traffic information,

and shall identify corridors and intersections which do not meet pedestrian and bicyclist safety standards.

Gaps will be identified in the City's pedestrian and bicycle network. This would include signage, sidewalks, bike paths, and any other facilities which may provide safe efficient access to pedestrian and bicyclist destinations.

Critical community and neighborhood concerns and problem areas will be identified based on public participation and public outreach as collected in Task 1.

Schools with deficient bicycle and pedestrian networks within their corresponding neighborhoods and attendance boundaries will be identified. This would also include analysis of safety issues for the appropriate school.

Demand for bicycle and pedestrian facilities and areas of high vehicular traffic volumes will be identified.

Regional interconnections with Collier County or areas outside the City of Naples will be addressed.

Based on data collected in Task 3, the Consultant will identify major bike/ped attractions such as parks, beaches, etc.

The objectives must be system and performance-oriented, and provide quantitative directions toward the attainment of goals.

#### Technical Memorandum #4: Existing Conditions Analysis

The Consultant will prepare a Technical Memorandum consisting of a thorough evaluation of the existing conditions analysis categories. Major bicycle and pedestrian issues, needs, constraints and opportunities within the study area will be summarized. Relevant data will be presented in an organized, concise, and understandable format, either mapped, graphed, and/or in tabular form for public consumption. Goals and objectives will also be clearly identified and described in this Memorandum. The connections analysis and the identified goals and objectives shall be presented in a logical concise format. An analysis of possible improvements will be conducted to assess the implications to the study area; the ability to address identified issues, trends, needs, conflicts, problems and opportunities; and the cost to implement, including capital and operation costs, as well as potential funding sources and revenue.

Prioritized improvements will be ranked in a concise, orderly, and understandable format. Those improvements that best meet the study objectives as identified in Task 4 of this report will be clearly identified and described as to their merit over the possible options.

#### Technical Memorandum #5: Plan Development & Design

The Consultant will prepare a Technical Memorandum describing the development of the prioritized bicycle and pedestrian travel improvements. The Memorandum will describe the evaluation methodology and its application to bicycle and pedestrian transportation enhancement projects. The Consultant will provide an electronic file to the City in PDF format which will be incorporated in the final report at a later date.

#### **Task 6 – Bicycle and Pedestrian Implementation Plan**

Based on the results of the previous task, the Consultant will prepare an implementation plan that will address each of the following issues:
