At the request of the client, KHA prepared for the March 13, 2007 Community Services Advisory Board Meeting (CSAB). Prepared a PowerPoint presentation and meeting material handouts. Traveled to Naples and made presentation at the CSAB Meeting. Summarized meeting input and provided this information to the project team for inclusion in the final report.	\$ 2,500
At the request of the client, KHA prepared for the March 14, 2007 Planning Advisory Board Meeting (PAB). Prepared a PowerPoint presentation and meeting material handouts. Traveled to Naples and made presentation at the PAB Meeting. Summarized meeting input and provided this information to the project team for inclusion in the final report. Travel to and from this meeting was combined with the CSAB Meeting. These presentations were made so that Board members could comment and make suggestions for improvements. As a result of the input at these meetings, the consultant recommendations (and cost estimates) were changed to reflect sidewalks on only one side of the road and to breakout separate costs for sidewalks and bike lanes in the presentation.	\$ 2,500
Adjustments to project recommendations following these meetings, including refined cost estimates, "before and after" renditions, and presentation/meeting materials. At the request of the City, KHA prepared detailed costs estimates based on refined project recommendations. Also at the request of the client, KHA prepared renditions of some of the project recommendations to communicate the recommendations using graphic depictions. These renditions showed "before and after" applications of bicycle and pedestrian facilities along project roadways and were necessary to show residents and meeting participants the impacts of the recommended facility improvements. It was requested that additional school data be collected and analyzed and maps, cost estimates and funding sources created for each specific project.	\$ 7,750
Data collection and GIS analysis for sidewalks, planned bicycle and pedestrian facilities, designated bicycle lanes, lane widths, paved shoulders, man-made barriers, school and recreation facility locations, and existing transit service. Per the scope of work, this was to be provided by the City, but was incomplete.	\$ 4,000
Assistance in the development of a new bicycle facility policy, including facilitating public input and recommendations. The development of the bicycle policy required several versions and changes, along with coordination involving City staff.	\$ 1,000
KHA has been asked to prepare for and attend the City Council Workshop on April 16th. This involves preparation of meeting materials, a revised set of project recommendations and maps that identify project recommendations.	\$ 1,500
Total	\$ 19,250

IN THE AMOUNT OF \$19,250.00
