10.3. The CITY shall have the right to terminate this Agreement, in whole or in part, without cause upon 7 calendar day's written notice to the CONTRACTOR. In the event of such termination for convenience, the CONTRACTOR's recovery against the CITY shall be limited to that portion of the fee earned through the date of termination, together with any retainage withheld and any costs reasonably incurred by the CONTRACTOR that are directly attributable to the termination, but the CONTRACTOR shall not be entitled to any other or further recovery against the CITY, including, but not limited to, anticipated fees or profits on work not required to be performed.

ARTICLE ELEVEN CONFLICT OF INTEREST

11.1. The CONTRACTOR represents that it presently has no interest and shall acquire no interest, either direct or indirect, which would conflict in any manner with the performance of services required hereunder. The

CONTRACTOR further represents that no persons having any such interest shall be employed to perform those services.

SCOPE OF SERVICES

This document presents the Scope of Services and related budget for engineering, permitting and construction observation services for "spot dredging" in Doctors Pass and the navigation channel in Moorings Bay. The navigational channel location is between Markers 10 and 14 where shoaling has occurred on the eastern portion of the west channel. The other location is within Doctors Pass along the north side of the Doctors Pass south jetty. These areas are within an active state and federal permit.

This cost breakdown is provided to clarify what basic services will be necessary to collect the data, develop the plans, obtain regulatory approval, prepared construction plans and specifications, assist the City with bidding the work, provide construction phase services, reporting and monitoring for regulatory compliance and conducting a post construction survey with final project certifications and pay review for the City. In addition, since the amount of material is unknown at this time and since post construction seagrass surveys may possibly be waived depending on the preconstruction seagrass survey, a contingency phase has been added to cover additional construction time and the survey if deemed necessary.
