15-00071

REVISED SECOND AMENDMENT TO AGREEMENT (CONSTRUCTION MANAGER-AT-RISK SERVICES)

THIS SECOND AMENDMENT (the "Second Amendment") to the Contract for Construction Manager-at-Risk Services is made and entered into this <u>6th day of May</u>, <u>2015</u> by and between the CITY OF NAPLES, a Florida Municipal Corporation (the "City"), and MANHATTAN CONSTRUCTION (FLORIDA), INCORPORATED, a Florida Profit Corporation (the Consultant").

WHEREAS, the City and the Consultant entered into that certain Agreement to furnish Contract for Construction Manager-at-Risk Services, dated March 4, 2015 (the "Original Agreement") (Reference Original Bid No. RFQ 15-004 and Original Clerk Tracking No. 15-00023 for services associated with Construction Manager at Risk Pier Renovation Project: Second Amendment: Adding additional Restroom renovations to Basis of Compensation ('Project'); and

WHEREAS, the parties desire to amend the Original Agreement by this Second Amendment so that the Consultant will provide additional services pursuant to the terms and conditions contained herein.

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, and in consideration of the mutual covenants, promises and conditions herein set forth, it is hereby acknowledged and agreed as follows:

- 1. The above recitals are true and correct and are incorporated herein by this Reference.
- 2. "Article Three, Time" shall be amended to October 30, 2015 for the provision of additional time the Consultant will have for the completion and close out of the Project, Construction Manager at Risk Pier Renovation and Restrooms:
- 3. "Article Four, Compensation" shall be amended for the provision of additional fees by the Consultant in the amount of a (GMP) Guaranteed Maximum Price of \$844,943.00 that includes an \$80,000.00 contingency and allowance fee for Pier Restroom Renovations. Attachment A-1 Scope of Services and Basis of Compensation is attached and made a part of this Second Amendment.
- 4. The terms of this Second Amendment shall control and take precedence over any and all terms, provisions and conditions of Original Agreement which might vary, contradict or otherwise be inconsistent with the terms and conditions hereof. All of the other terms, provisions and conditions of Original Agreement, except as expressly amended and modified by this Second Amendment, shall remain unchanged and are hereby ratified and confirmed and shall remain in full force and effect.

5. This Second Amendment may be executed in any number of counterparts, each of which shall be deemed to be an original as against any part whose signature appears thereon and all of which shall together constitute one and the same instrument.

IN WITNESS WHEREOF, the City and the Consultant have caused this Second Amendment to be duly executed by their duly authorized officers, all as of the day and year first above written.

Construction Manager at Risk - Pier Restroom Renovation

CLARIFICATIONS / QUALIFICATIONS / ASSUMPTIONS

The Clarifications/Qualifications/Assumptions contained in this GMP constitute the final agreement concerning each of these items and supersedes any and all prior agreements, correspondence and understandings between the parties.

GENERAL

- Please find attached 2 additional documents titled:
 - a. GMP #2A Pier Restrooms per plans and specification
 - b. GMP #2B Pier Restrooms Value Engineering & Allowances
 - NOTE: As of the meeting held with the City of Naples on Aril 27, 2015; the current design reflects the GMP #2A Pier Restrooms per plans and specifications document. The current design exceeds the City of Naples budget and we were asked to reduce cost by eliminating some finishes, changing specifications, and other means in order to meet the City of Naples \$600,000 budget for the Pier Restroom project.
 - The GMP #2B Pier Restrooms Value Engineering & Allowance document reflects what has been requested in order to meet the desired budget. However, in order to achieve this, we have also had to remove the \$80,000 contingency in order to achieve the desired budget of \$600,000.
 - In order to proceed with these contract terms we would also request a line item of \$60,000 at a minimum be added for contingency as mentions in 1.b above.
- The GMP is not a line item GMP. Line items are shown with estimated unit rates as back-up for the basis of the GMP proposal. Line items that are overrun may be funded by items that have not been to achieve the guaranteed maximum price.
- The GMP assumes unrestricted access to the work sites.
- 4. The City has agreed to allow the Construction Manager to utilize and secure half of the Naples Pier metered parking lot for parking and storage at no cost for the duration of this project.
- The GMP assumes the project has been designed by the Design Engineer to meet ADA, FBC, FDEP, FWC, USACE and City of Naples requirements.

SCHEDULE, WEATHER & WORK HOURS

- It is understood that a Notice to Proceed must be provided by the City upon execution of the Agreement to permit the procurement of all materials in advance of the construction start.
- 7. The GMP is based on a standard work week. The normal work week will be Monday through Friday and normal work hours will be 7:00 am to 5:30 pm.
- Construction Manager will record on the daily reports occurrences of adverse weather and resultant impact to normally scheduled work. Actual adverse weather delays must prevent work

on critical path activities for 20 percent or more of the scheduled work day. The Project schedule includes an allowance of 5 days for adverse weather delays and weather related site condition delays. Any weather delays or weather related site conditions delays that effect the critical path for more than allowed above will be considered a Change in the Project and an appropriate time extension will be issued to the GMP.

- 9. The GMP assumes that there will be no restrictions on the number of hours per day or on the number of days per week that construction operations will be allowed to occur. If such restrictions are placed on the construction operations, and the restrictions results in a delay to the project, such restrictions will be considered a change in the project and an appropriate Owner Contingency authorization or a change order will be issued to the GMP.
- 10. The GMP assumes that the Owner including any consultants / representatives (Design Engineer, Owner representative...) will respond to the following requests that affect the critical path within the time frame stated to prevent delays in the project:
 - a. Submittals 5 business days
 - b. RFI's 2 business days
 - c. RCO's or Contingency Authorizations 3 business days
 - d. Pay Application review 5 business days
 - e. Punch list / inspection reports 2 business days
 - f. Contingency Authorization 1 day
- 11. Construction Manager reserves the right to revise and change the sequence of work and schedules as necessary.

WARRANTIES

12. The GMP assumes the one year warranty period for this project will begin when the work of this GMP achieves Substantial Completion.

INSURANCE

 The GMP assumes the Owner will be responsible for and pay for any builder's risk insurance deductibles.

SOIL INVESTIGATION DATA & SITE CONDITIONS

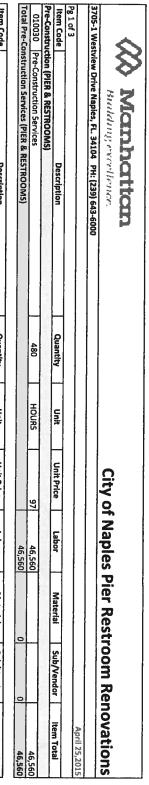

14. The GMP is based on the information contained in the plans. If actual subsurface conditions encountered vary from those indicated on the plans and the variances cause additional cost and/or time to the Construction Manager or any of the Construction Manager's Subcontractors, the additional costs and/or time will be considered a change in the Project and an appropriate Allowance authorization or a change order will be issued to the GMP.

CONTINGENCY.

15. As requested by the City the GMP excludes a Construction Manager Contingency for the exclusive use by the Construction Manager. Any remaining balance of an Owner Contingency shall be returned to the City after the Project is closed out. Owner Contingency excludes CM Fee. Construction Manager fee shall be added to any Contingency Authorizations at a fixed fee rate of five percent.

ALLOWANCES.

16. The GMP includes allowances. Allowances will not be spent without approval from the Owner. Allowances are provided only as estimated amounts. When the allowance costs are assembled, the GMP will be adjusted to reflect the difference between the total actual cost to complete the work item and the allowance amount for the work item. If the total actual cost of the allowance work item is less than the allowance amount of the work item, the GMP will be reduced by the amount of the difference. If the total actual cost of the allowance work item is greater than the allowance amount of the work item, the GMP will be increased by the amount of the difference. The status of the allowance work items will be tracked and reported.
