

City of Naples, Florida

Annual Budget

Fiscal Year

1977-1978

City of Naples

735 EIGHTH STREET, SOUTH - STATE OF FLORIDA 33940

September 1, 1977

Honorable Mayor and Members of City Council
City of Naples
City Hall
735 Eighth Street South
Naples, Florida 33940

Dear Mrs. Corkran and Gentlemen:

Presented herewith for your review is a balanced budget in the sum of \$10,507,037. This breaks down into the following categories: General Fund Operating Budget \$5,613,982; Water and Sewer Enterprise Funds \$3,472,690; and Capital Improvements \$1,420,365 or \$729,765. If the latter Capital Improvement amount is adopted by the Council, the budget total would be \$9,777,272. The decision of the Council regarding the Capital Improvement budget will have no effect on the tax rate, as the budget is funded from utility tax and revenue bonds.

GENERAL FUND BUDGET

The General Fund operating budget in the amount of \$5,613,982 reflects a proposed expenditure increase of only 2.78%. This is due to the fact that the Contingency Fund, which may not be spent, has been increased by \$150,000 and \$124,500 has been budgeted for the acquisition of the McDonald Quarters buildings. It is not anticipated that these funds will be spent, but it is a legal requirement that we budget for them if the City is entering into an acquisition agreement.

Taking into consideration the compounding of the inflationary factor and the population growth, the operating budget falls well below the combination of these figures with no decrease in the services provided to the citizens of the City. Requests received from the various City departments were cut by \$275,517. These cuts relate to the requests for the coming fiscal year and do not take into consideration a net reduction in the number of permanent employees by 11 that had occurred prior to the budget submittals.

Honorable Mayor and Members of City Council
September 1, 1977
Page 2

One of the major increases in our operating costs for the coming year, aside from inflationary factors, was our workmen's compensation rate which is up by approximately \$109,000. It is hoped that with the actuation of our full-blown safety program we will be able to show substantial decreases in this area in the coming year.

WATER AND SEWER BUDGETS

The water and sewer budgets' principal increases, other than normal inflationary factors, involve principally a substantial increase (19%) in our energy bills involved in the operation of both the water and sewage treatment plants.

CAPITAL IMPROVEMENT BUDGET

I have presented the Council with a Capital Improvement budget in the amount of \$1,420,365 and an alternate Capital Improvement budget in the amount of \$729,765. The smaller of the two Capital Improvement budgets would involve the delay of many needed projects, primarily in the area of street improvements and the proposed youth center. With three projects already having been predetermined: Harbour Drive \$284,000; Tenth Avenue South \$52,150; and debt service \$126,115, there are insufficient funds to cover the other capital expenses, since our utility tax revenue and carryover is estimated at \$718,840.

Approximately three years ago the City validated street improvement bonds in the amount of \$2½-million. These have never been utilized. I would urge the Council to consider the sale of \$1-million of these validated bonds which would be utilized partially in the coming fiscal year and the balance in the next fiscal year principally for street improvements in many areas of the City. The sale of these bonds would appear beneficial at this time. Even though the City would be obligated to approximately \$70,000 over the 30-year life of the bonds, it is doubtful if the interest rate would cost the City as much as the substantial increase yearly in the construction index. In addition, it would allow the City to accomplish these projects at this time when they are needed.

Major projects included in the Capital Improvement budget involve \$709,650 of street and drainage improvements in many areas of the City. In the Public Works section, in addition to other miscellaneous equipment, we contemplate the purchase of a new

Honorable Mayor and Members of City Council
September 1, 1977
Page 3

garbage truck, improvements under the parkways section involving landscaping of Harbour Drive and seven medians on U.S. 41 and a traffic operational needs study involving signalization throughout the City.

Also included is a new Police patrol boat and land acquisition for City Hall parking.

In the Parks & Recreation area, the recommendation included a youth center, four new racquetball courts at Fleischmann Park and the lighting of three additional tennis courts at Cambier Park.

REVENUES

The estimated revenues for the coming fiscal year are up substantially in only four categories: federal revenue sharing \$33,000; state revenue sharing \$24,000; franchises \$42,000; and property tax \$109,521. The property tax increase is generated only from new construction the past year and not from any reassessments in the City. No other revenue categories demonstrated any significant increase. The only revenue source that is down significantly falls under building permits in the amount of \$21,150 due to the fact that it is difficult to estimate and likely we will not reach the total building permit fees generated this year.

PERSONNEL

I have included a recommendation for only two additional employees, both of whom are allocated to the Wastewater Collection Division. Since purchasing the sewer TV unit, we are now more aware of necessary maintenance and repairs to the system. I feel it is advantageous to insure the proper maintenance of the system prior to reaching a difficult or critical stage.

No other requests for new employees from various departments were approved in my recommendations submitted to you. Even though two new employees are recommended, there is still a net reduction of 13 full time positions since the beginning of the past fiscal year. This can be seen on a department and division basis in the authorized position list included in your budget.

Honorable Mayor and Members of City Council
September 1, 1977
Page 4

CITY MILLAGE RATE

I am recommending to the Council that the present total millage rate of 3.9524 be reduced to 3.7091, or approximately one-fourth of a mill. This would amount to a 6.56% total reduction in our millage rate. The property tax revenue derived from new or existing structures would then be exactly the same as it was during the previous fiscal year. The only increase in revenue to the City from property taxes would be derived from new construction.

I believe the budget as proposed would allow the City to maintain a good level of service to the citizens, provide needed Capital Improvement items and at the same time effect a reduction in the millage rate.

I would like to thank the department heads and members of my staff who participated in the preparation of the budget for their assistance in finalizing this proposal for your consideration.

Respectfully submitted,

George M. Patterson
George M. Patterson
City Manager

GMP/tan

INFORMATION REGARDING CHANGES IN
BUDGET SUBMITTED:

For the information of the Council, this budget was prepared with a new chart of accounts, which is contained in the Appendix at the rear of the budget. I would suggest, prior to the budget review, that you acquaint yourselves with the various items contained in the new chart of accounts as this will help you identify the account numbers when you are reviewing the budget. These accounts are now standardized in every department allowing for a better understanding of the different items as they relate to each department and division.

Three new items have been charged against each department's and division's operation which were not there previously. These include duplicating costs, telephone and telegraph and employee overhead consisting of retirement costs, social security, workmen's compensation and health and life insurances. These were previously lumped in one employee benefit section of the budget which now no longer exists. This will enable you and the public to more accurately identify the total operating costs of each department and division.

Also, in next year's budget review, a more accurate comparision between years will be possible, which this year is difficult because of the many changes.

The City Council is the governing body of the City of Naples. The six Council members are elected from the City at large for four-year overlapping terms. The Mayor is elected for a two-year term. Municipal elections are held every even-numbered year.

The City Council adopts all ordinances and resolutions, determines policies, adopts the long-range capital and annual operating budgets for the City, receives requests and suggestions for changes in policy, represents the community in relationships with other governmental and quasi-public organizations.

The City Council holds regular meetings the first and third Wednesday of each month at 9:00 A.M. to consider all matters requiring their determination. Informal conferences (workshops) are scheduled each preceding Tuesday at 9:30 A.M., and such special meetings and additional study sessions are held as necessary. Individual Council members also provide liaison with citizen groups and federal, state and county officials.

The City Clerk's office is a department to which other departments and the general public come for information regarding the operations of the City. City contracts, agreements, deeds, ordinances, resolutions, as well as numerous other miscellaneous documents, are filed in this office. All municipal elections are conducted by this office. The City Council minutes are prepared and indexed, necessary letters are composed and related material indexed and filed. This office is responsible for legal advertising of ordinances and public hearings. The City Clerk and Deputy Clerk administer oaths, notarize documents, keep the municipal code up to date, sell City Codes, Charters and Ordinances, and have various other duties.

NEW PROGRAMS & PROJECTS

The Clerk's office will initiate a microfilming program and will be responsible for a new records retention/disposal system.

The Finance Department is responsible for the proper administration of the financial affairs of the City, subject to the supervision of the City Manager. It shall be assigned the following duties and functions:

1. Maintain a general accounting system.
2. Keep books for and exercise financial budgetary control over each office, department and agency.
3. Keep separate accounts for each item of appropriation contained in the City budget and perform other duties as may be requested by the City Manager or by ordinance from time to time.
4. Responsibility for custody of all City funds.

NEW PROGRAMS & PROJECTS

1. Consolidate Finance, Customer Services and Purchasing operation.
2. Consider acquisition/lease of new computer system.
3. Study/analysis of bi-monthly water billing.

This division collects all City utility fees and issues related orders pertaining to service changes and problems, billing and disconnects. The Customer Services Division also sells City occupational licenses, administers all City insurance programs (except employee group coverages) and maintains budgetary responsibility for City Hall utilities, telephone service and copying facilities.

In addition, all City mail is handled through Customer Services, which is also responsible for the maintenance of the City Hall complex.

This department is responsible for the administration and enforcement of building codes and related ordinances. It provides inspection of the structural, electrical and mechanical phases of construction. Plan checking service and consultation with interested parties are also offered. In addition, this department is responsible for the enforcement of the zoning ordinances. The department also provides staff support for the Board of Appeals and Contractors Examining Board.

NEW PROGRAMS & PROJECTS

Enforcement of restructured Housing Enforcement Code. Administration of newly adopted specialty contractors provisions.

The Planning Department is responsible for preparing and maintaining a comprehensive plan and a current zoning atlas of the City as well as making recommendations to the Planning Advisory Board on amendments to the zoning atlas and zoning code consistent with the implementation of the City's comprehensive plan and Council policy.

This department processes and makes recommendations concerning a variety of other petitions, including special exceptions, variances, subdivisions and the like.

The department also prepares special studies and reports as requested by the City Manager.

Delineating areas of City in need of rehabilitation.
NEW PROGRAMS & PROJECTS

Major projects for the fiscal year 1977-78 include a complete revision of the comprehensive plan, review and analysis of the zoning ordinance and amendment recommendations, improved graphic presentations and staff assistance to the Community Appearance Board Task Force.

The Naples Police Department is responsible for the protection of life and property within the corporate limits of the City. This is accomplished with 64 regular and four part-time employees through the enforcement of City ordinances, state statutes and federal laws.

The Department is divided into two divisions: Operations and Services.

The Operations Division contains the bulk of the organization with the patrol and detective forces. These officers are charged with investigation and prevention of crime, apprehension, traffic regulation and accident investigation.

The Services Division serves as a support group. The administrative services necessary for department operation are performed by this group.

NEW PROGRAMS & PROJECTS:

- Full implementation of flexible zone assignments.
- Addition of new, improved police patrol boat.
- Additional traffic enforcement - U.S. 41.
- Develop bicycle safety program.

The traditional role of the fire service has been to protect life and property from fire; however, in recent years that role has been expanded to include such additional services as rescue and emergency medical aid.

Response to emergencies represents only the tip of the iceberg compared to the total activities of the department. Non-emergency activities include inspections, training, maintenance, public education, consultation service and fire investigation directed toward elimination of conditions which represent fire hazards.

A ladder company was established and an in-service inspection program was instituted in this past year. This represents two important benefits: improved service and more efficient utilization of manpower.

NEW PROGRAMS & PROJECTS

1. Coordination of safety program.
2. Establishment of fire lanes in shopping centers.
3. Coordination of fire rating.
4. Water oriented firefighting - police patrol boat.

The Parks & Recreation Department is responsible for the development of new parks and the maintenance and safe management of existing parks. This department is also in charge of all recreational programs, both the initiation of new programs and the up-dating of those already established. In addition, it oversees the operation of such other department enterprises as the City Dock, Pier, tennis program and vending machine operation.

NEW PROGRAMS & PROJECTS:

- Pay for Play Plan.
- Long-range Parks & Recreation plans.
- Study boat dock expansion and improvements.
- Study possible Pier improvements.

The Engineering Division is responsible for design and inspection of capital improvement projects accomplished by the Street Division of the Public Works Department. It performs design and construction management of contract work for roadways, drainage, parks development site work, parking lots and other projects; processes and inspect permits for driveways, street excavations, sidewalks and utility installations; and provides engineering services to the various departments of the City administration. In addition, the Engineering Division provides traffic engineering services for in-house construction, maintenance and operation of City roadways; provides traffic engineering and traffic planning liaison with the Florida Department of Transportation and County Engineer; processes dredge permits; prepares recommendations and cost development of capital improvement projects; reviews water and sewer main extension plans and specifications; and investigates roadway and drainage complaints.

NEW PROGRAMS & PROJECTS:

Will initiate water mapping, in-house.

The Traffic Control Section of the Engineering Division maintains city-owned street lights with the assistance of Florida Power and Light Company and underwrites the maintenance of other street lights in the community through Florida Power and Light. The section is responsible for installing and maintaining traffic signs and signals on city streets and maintains traffic signals on state roadways within the city limits.

Pavement marking, parking meter installation, and, upon request, traffic counts, are handled by this section.

General obligation bonds in the amount of \$2,000,000 were approved by Ordinance 997. This issue was sold on September 6, 1963. The proceeds from this sale were for the purpose of financing street improvements, acquiring lands for public parks and recreational facilities, including channel dredging and paying the costs of acquiring a site, erecting and equipping buildings thereon for use as a central maintenance and repair facility for the Public Works Department. On June 1, 1977, the outstanding balance is \$1,090,000. The bonds redeemed amount to \$910,000.

Included in 1975-76 expenditures is the final principal and interest payment on equipment note due the Barnet Bank of Naples. Principal amount paid, \$43,500; interest, \$4,442.82.

The function of the production division of the water system is to produce and deliver to the distribution system an adequate and safe supply of high quality, soft, and stabilized water. This is accomplished by the practice of multiple barriers through a modern, up-to-date lime softening plant. The entire operating supervising staff is state certified.

Some additional responsibilities are:

1. Ecology checks on various lakes
2. Monitoring U.S.G.S. wells
3. Inspecting wells permitted in the city
4. Maintaining lake levels for salt water intrusion purposes
5. Construction of equipment and buildings to enhance safety and increase production

The primary function of the wastewater treatment division is to convert sewage to a product meeting Department of Environmental Regulation and Environmental Protection Agency standards. This is accomplished by receiving some 3.9 million gallons per day raw sewage into extended air versions of the activated sludge processes. In this process, we experience above 95 percent (95%) B.O.D. removal. The solids are then removed and the effluent chlorinated. After the proper retention time in the polishing pond, this chlorinated water enters the receiving stream.

Additional functions of this division include maintenance and repair of 75 sanitary lift stations, and three storm stations. We currently have 6,261 connections.
