

CITY OF NAPLES

1979-80 ANNUAL BUDGET

City of Naples

735 EIGHTH STREET, SOUTH - STATE OF FLORIDA 33940

OFFICE OF THE CITY MANAGER

August 1, 1979

Honorable Mayor and Members of City Council
City of Naples
City Hall
735 Eighth Street South
Naples, Florida 33940

Gentlemen:

Presented for your review is a balanced budget in the sum of \$13,387,418. This is broken down into the following categories: General Fund Operating Budget - \$6,122,411; Water and Sewer Enterprise Funds - \$6,030,381; and Capital Improvements - \$1,234,626.

From the outset, the basis upon which the budget was formulated involved holding the line on any unnecessary expenditures without in any way decreasing the level of service provided. In many departments/divisions we will actually be instituting new programs and projects for the coming fiscal year. These are listed on the cover sheet of each department and division budget.

GENERAL FUND BUDGET

The General Fund Budget, in the amount of \$6,122,411, represents an increase in expenditures of only 5.9%. It also allows for a contingency fund of \$360,000. The contingency is meant to cover unknown increases in costs such as energy, gasoline prices, salaries and any programs or projects that are not anticipated as of this time.

During the course of the budget review, requests received from the various City departments were reduced by \$200,000. These reductions consisted of corrections in calculations, costs which were considered unnecessary, and more recent expenditure history (cost to complete) than was available to the departments at the time the budgets were originally formulated. The budgets as submitted by the departments, in large part, indicated an attitude

Mayor and Council
August 1, 1979
Page 2

toward holding the line. In a few cases, the estimates were sufficiently conservative that they were increased to reflect what I believe will more likely be their actual costs. We have also built into the budget anticipated but unknown increases in many important categories, not the least of which will be our utility and fuel costs. Our energy costs for the coming year are estimated at \$700,000.

In an effort to improve our services and attempt to further reduce our costs of operation without affecting our level of service, a number of new programs and projects are planned. These include completing the review of City garbage/trash operations; implementation of improvements in our vehicle maintenance operation; productivity and work measurement training programs; implementation of new automated financial information systems including new plans for accounting, payroll, personnel and public works; adopting new procedures for identification of fixed assets; implementation of the newly adopted comprehensive plan; initiation of a City-wide sign inventory; updating of the City atlas (land use information); conducting a public education campaign to provide fire protection and life safety information to the citizens; establishing complete programming for the new multi-purpose center; evaluation of more cost effective methods in street pavement restoration; City-wide replacement of street signs, stop signs, etc.; City-wide renovation of grass swales and drainage improvement; and research and development of the use of compaction container units for garbage service.

WATER AND SEWER BUDGETS

The combination of the Water and Sewer Budgets is up by a total of \$611,000. The substantial increase involves principally capital improvement projects planned for the year which are major improvements to both the water and sewer systems. This accounts for most of the increase for our utilities divisions which comprise a large portion of the City's total operating budget. Reductions in the utility operating budgets amounted to nearly \$69,000 and in the capital improvement sections to approximately \$1,680,000. Some of these programs are merely a deferment until a more appropriate time for construction while two of these are being further analyzed as to whether or not they are ultimately needed. The overall increase in the utilities budget, due primarily to capital improvements and the growth of the water and sewer systems, is approximately 11.3%.

Mayor and Council
August 1, 1979
Page 3

CAPITAL IMPROVEMENT BUDGET

The Capital Improvement Budget is recommended for funding in the amount of \$1,234,626. This consists of numerous types of improvements throughout the City. The first involves 12 major street improvements, the largest of which totals \$139,000 and involves reconstruction of Sixth Street South from Central Avenue to Fifth Avenue South with bike lanes. Three bike paths are planned, totalling \$26,900, on Orchid Drive, Tenth Street and 14th Avenue North. A major sidewalk improvement is scheduled on Fifth Avenue North from Tenth Street to Goodlette Road. Traffic signal improvements are scheduled on Tenth Street, Harbor Drive and Eighth Street South.

Parks & Recreation improvements include the renovation of the Carver Site for a recreation center and basketball court, renovation of the Community Center at Cambier Park, major fencing improvements at Fleischmann Park, land acquisition for a neighborhood park, equipment for the new multi-purpose center and restrooms at Anthony Park.

In the way of landscaping, improvements will continue on U.S. 41 from Banyan to Fleischmann and four other landscaping projects have been included. Numerous pieces of equipment are recommended for purchase, many of which will allow us to provide a better level of service in the functions performed, and some of which are scheduled to provide improvement of the vehicle maintenance operation. Also, a comprehensive drainage study for the City is planned and a beachhead ramp and platform for the handicapped is scheduled.

These recommended projects will provide significant capital improvements to the benefit of the citizens.

REVENUES

The revenues for the coming fiscal year are projected at only 4.2% above our current estimate for receipts in this fiscal year. Many of the various revenue accounts will increase only at a moderate rate. The most significant increase involves a \$49,000 increase in franchise fees and a \$23,000 increase in our federal revenue sharing. Based on our recommended millage rate, our actual receipts from ad valorem (property) taxes is estimated at nearly \$6,000 lower than this current year.

Mayor and Council
August 1, 1979
Page 4

PERSONNEL

There are a few changes recommended in personnel which will involve the addition of only one more full time position and the reduction of four part time positions. With the recommendations involved, we will still have seven less full time positions than were budgeted in 1976. The principal change since that period of time involves additions in our utilities section (water and sewer) where we have added seven full time positions to to the growth of the systems and the treatment and environmental requirements plus a preventive maintenance program. During the same period of time, excluding utilities, the general government employee positions have been reduced by .14 so that we still remain seven below the period three years ago, despite substantial growth during that same three-year period, in addition to many new programs we have put into practice.

FUTURE OUTLOOK

The City is in a very sound financial position with an optimistic outlook as it pertains to providing a level of service this year with a balanced budget. In addition, due to the results beginning to show in some of our programs, such as our safety program, we can anticipate the possible reduction in the next fiscal year of as much as \$300,000 in our workers' compensation funding.

CITY MILLAGE RATE

I am recommending to the Council that the present total millage rate of 3.5432 be reduced to 3.3958, a reduction of 4.16%. This results in the adoption of a millage rate even below the certified millage rate, which actually results in a reduction in total property taxes for the coming fiscal year. This is possible because of an improvement in departmental operations, sound management practices by the departments, increased productivity, improved work methods, and better equipment utilization as well as purchasing procedures resulting in lower costs.

I believe the budget as recommended will allow the City to provide a full level of service, many worthwhile major improvements and also effect a reduction in the millage rate.

I would particularly like to acknowledge the assistance of my staff, the Finance Director and all of the department heads and

Mayor and Council
August 1, 1979
Page 5

division heads who participated in the preparation of this budget
for your review and consideration.

Respectfully submitted,

George M. Patterson
George M. Patterson
City Manager

GMP/tan

The City Council is the governing body of the City of Naples. The six Council members are elected from the City at large for four-year overlapping terms. The Mayor is elected for a two-year term. Municipal elections are held every even-numbered year.

The City Council adopts all ordinances and resolutions, determines policies, adopts the long-range capital and annual operating budgets for the City, receives requests and suggestions for changes in policy, represents the community in relationships with other governmental and quasi-public organizations.

The City Council holds regular meetings the first and third Wednesday of each month at 9:00 a.m. to consider all matters requiring their determination. Informal conferences (workshops) are scheduled each preceding Tuesday at 9:30 a.m., and such special meetings and additional study sessions are held as necessary. Individual Council members also provide liaison with citizen groups and federal, state and county officials.

The City Clerk's office is a department to which other departments and the general public come for information regarding the operations of the City. City contracts, agreements, deeds, ordinances, resolutions, as well as numerous other miscellaneous documents, are filed in this office. The City Council minutes are prepared and indexed, necessary letters are composed and related material indexed and filed. This office is responsible for legal advertising of ordinances and public hearings. The City Clerk and Deputy Clerk administer oaths, notarize documents, keep the municipal code up to date, sell City codes, charters and ordinances and have various other duties.

The City Manager, as the chief executive officer of the City, directs all operations within the administrative branch of city government. He also advises the City Council on the affairs of the City and is responsible for enforcement of all city ordinances. The City Manager's staff assists him in carrying out these duties.

New Programs & Projects

- Complete review of city garbage/trash operation.
- Complete review of park maintenance operation.
- Implementation of recommended changes and improvements in vehicle maintenance/fleet management operation.

The Building & Zoning Division is responsible for the plan check, permit issuance and inspection of all construction in the City; the enforcement of the city's zoning ordinance; the administration and processing of petitions relative to the city's Board of Appeals and Contractors' Examining Board; and for the preparation of various construction-related data and reports.

The division's overall goal is to provide the highest level of plan check, inspection and enforcement services at the lowest possible cost.

New Programs & Projects

The primary activities of 1979-80 will include a review and revision of the existing building-related codes and the preparation for adoption of various 1979 editions of the standard codes; the continued review and revision of various policies and procedures in an effort to simplify and clarify requirements and regulations; and the initiation of a city-wide sign inventory program.

TOTAL	87,807	88,982	78,043	77,143	77,143

The Planning Division is responsible for preparing and implementing the city's comprehensive plan, maintaining its current zoning atlas and making recommendations to the Planning Advisory Board on amendments to the zoning atlas and zoning ordinance consistent with the implementation of the city's comprehensive plan and City Council policy.

The division processes and makes recommendations concerning a variety of petitions, including special exceptions, variances, subdivisions and the like. In addition, it provides such information as population and economic growth trends, land development regulations and similar data to the public and other governmental agencies. Studies and reports as requested by the City Manager or Community Development Director are also prepared by this division.

The division's overall goal is to provide the most cost-effective and efficient planning-related data, processing of petitions and recommendations as possible.

New Programs & Projects

The major 1979-80 activities of the Planning Division will include the implementation of the city's new comprehensive plan, adopted in July, 1979; a continuing review and improvement of the city's zoning ordinance; securing a Section 8 New Construction Allocation for the Carver Site project; completion and close-out of the administration of the city's Economic Development Administration grant and efforts to obtain bikeway-related grants. Also, the zoning atlas (land use information) will be completely updated.

The Design/Administration Section of the Engineering Department provides administrative and technical support to the City Engineer. These support functions allow the department head to maintain management and cost controls within the Streets/Drainage Division and Traffic Control Section and at the same time, as City Engineer, maintain responsible charge for all in-house roadway and utility design work. In addition, this section approves for permitting and inspects all work within the city-owned right-of-ways; provides engineering services for other departments within the city administration as authorized by the City Manager; prepares plans, cost estimates and recommends priorities for the capital improvement programs involving streets, bike paths and drainage projects; reviews/approves engineering aspects of water and sewer main extensions; investigates and offers remedies to citizen complaints within its area of responsibility; and administers the City's energy conservation programs.

New Programs & Projects

Will evaluate more cost effective construction methods in street pavement restoration such as those utilizing asphalt recycling and slurry seal treatments.

The Streets & Drainage Division of the Engineering Department maintains the 103 miles of local streets within the City as well as the associated drainage systems. In addition to these functions, it executes street reconstruction/repaving projects funded under the capital improvement program valued as approximately \$400,000 annually. Recent direct cost comparisons between this division's cost to complete and outside contractor costs on similar projects indicates a taxpayer savings of at least 30%, which well justifies this division's involvement in the capital improvement program.

New Programs & Projects

- Curbing repairs - Port Royal area.
- Grassed swale renovations City-wide.
- Better use of project scheduling techniques to allow better cost control and on-time project completions.

CITY OF NAPLES
Departmental Budget 1979-80

	ENGINEERING TRAFFIC CONTROL SECTION			City Manager Recommends 1979-80	Council Approval 1979-80
	Actual Expenditures 1977-78	Annual Budget 1978-79	Department Request 1979-80		
Employee Services	45,866	52,153	86,484	85,708	85,708
Maintenance & Operation	170,708	175,328	190,296	189,171	189,171
Capital Outlay	946	4,100	800	800	800
TOTAL	217,520	231,581	277,580	275,679	275,679

The Traffic Control Section of the Engineering Department will continue to study, analyze, make recommendations and implement traffic safety and operational improvements. Some of these improvements will be major in scope requiring capital improvement funds while other small projects will only require minor sign, signal and pavement marking changes and will come from the regular operating budget. A traffic study recently completed by our traffic consultant, Barr, Dunlop & Associates, documented safety and operational improvements which will be prioritized and implemented as time and funding permit.

Florida Statute 316.0745 requires that by January 1, 1980, all signal displays be upgraded to provide two indications per approach. Seven signalized intersections in the City will require upgrading as a result of this law.

New Programs & Projects

Last year the City received a \$15,000 Sign Implementation Grant which will be used to replace 650 old stop signs. Also, as part of this grant, we must make an effort to upgrade our remaining non-standard signs. Other sign projects may include the upgrading of beachhead signs and replacement of old, faded street name signs.

The maintenance and repair of the following items will continue by this section during the 1979-80 fiscal year:

Traffic Control Signs
City-owned Street Lights
Parking Meters
Traffic Control Signals
Traffic Striping

The Customer Services Division of the Finance Department is responsible for the collection of water, sewer and refuse bills as well as the issuance of occupational licenses, the collection of water meter and sewer application fees and lot mowing bills. This division also handles the sale of garbage bags.

Formerly, the building maintenance and janitorial service were handled by this division; it is now the responsibility of the Purchasing Supervisor.

New Programs & Projects
Automate occupational license system.

The Purchasing Division is responsible for the purchasing activities of the City. It makes purchases of \$100 or more and operates the city central supply warehouse. This division also supervises the city motor pool, mail room, reproduction center and City Hall Complex building maintenance and repair.

New Programs & Projects

Adopt new procedure for identifying fixed assets.

Issue annual contracts to eliminate duplication of efforts by departments.

-Air conditioning and heating maintenance.

-Pest and rodent control.

-Vehicle parts and repairs.

The main objectives of fire protection are to prevent fires, to prevent loss of life, and to minimize property damage from fire. From the point of view of the city government, these objectives involve fire prevention and firefighting. This role has been expanded in recent years to include additional services of rescue and emergency medical aid.

New Programs & Projects

A public education campaign to bring life safety and fire protection information to city residents.

Finalize training plans for the McDonald Quarters area.

Complete revamping of records, forms and reporting.

Work toward the use of the 911 emergency telephone reporting system and dispatching of city apparatus by the sheriff's office on emergency runs.

Establish a refueling system at the scene of emergencies.

Improve fire prevention education program for citizens.

The Parks & Recreation Department is responsible for the development of new parks and the maintenance and safe management of existing parks. This department is also in charge of all recreational programs, both the initiation of new programs and the updating of those already established. In addition, it oversees the operation of such other department enterprises as the City Dock, Fishing Pier, tennis program and vending machine operation.

New Programs & Projects:

- Study of boat dock expansion/improvement or enlargement.
- Complete programming for multi-purpose center.
- Complete renovation of Cambier Park Community Center.
- Renovation of Carver School storage facility into recreation area.

*Does not include cost for staffing or operation of new multi-purpose center.

The Naples Police Department is responsible for the protection of life and property within the corporate limits of the City through the enforcement of city ordinances, state statutes and federal laws. This is accomplished with 64 regular and four part time employees.

The Department is divided into two divisions: Operations and Services. The Operations Division contains the bulk of the organization with the patrol and detective forces. These officers are charged with investigation and prevention of crime, apprehension, traffic regulation and accident investigation. The Services Division serves as a support group. The administrative services necessary for department operation are performed by this group.

The Parkways & Services Division of the Public Works Department provides the maintenance and development of the City's parkways and right-of-ways as well as other public lands not assigned to other departments. The division also maintains the areas around city buildings and handles aquatic weed control in drainage lakes.

New Programs & Projects:

Research and develop the use of compaction container units for food dispensing establishments. Research the use of the transfer station at Public Works Yard.

Increase the use of the two cubic yard truckster for the collection of garbage on the residential route.

Develop the trash landfill to meet Department of Environmental Regulation requirements. Analyze trash trailers for hand pick-up of yard trash. Develop services not readily available.

General obligation bonds in the amount of \$2,000,000 were approved by Ordinance 997. This issue was sold on September 6, 1963. The proceeds from this sale were for the purpose financing street improvements, acquiring lands for public parks and recreational facilities, including channel dredging and paying the costs of acquiring a site, erecting and equipping buildings thereon for use as central maintenance and repair facilities for the Public Works Department. On June 1, 1979, the outstanding balance is \$920,000. The bonds redeemed amount to \$1,080,000.

Principal payments during fiscal year 1979-80 will be \$90,000. Interest payments will be \$32,200. Bank fees will be \$182.

Along with the Water Distribution Division's regular work, such as repair of mains, utility location and installation of meters, the following additional goals have been set:

- Continuation of the meter change-out and modernization program.
- Initiation of an active valve location and turning program for the entire Chapter 180 District.
- Initiation of a program for water main relocation and replacement and additional fire hydrants.

The function of the Water Production Division is to produce and deliver to the distribution system an adequate and safe supply of high quality, soft and stabilized water. This is accomplished by the practice of multiple barriers through a modern, up-to-date lime softening plant. The entire operating supervising staff is state certified. This budget will cover the production of 4,644,000,000 gallons of water.

- Some additional responsibilities are:
- Ecology checks on various lakes.
 - Monitoring U.S.G.S. wells.
 - Inspecting wells permitted in the City.
 - Maintaining lake levels for salt water intrusion.
 - Constructing equipment and buildings to enhance safety and increase production.
 - Maintaining all wells and appurtenances in both well fields.
 - Maintaining three repump stations.
 - Maintaining vacuum and pressure relief valves in the raw water system.

The Wastewater Collection Division repairs sewer mains, installs laterals, repairs manholes and is responsible for other related maintenance work.

In addition, the following goals have been set:
 -Continue television survey of all areas of the system where potential failures are suspected.
 -Make video tape record of condition of main system and verify location of laterals.

The primary function of the Wastewater Treatment Division is to convert sewage to a product meeting Department of Environmental Regulation and Environmental Protection Agency standards. This is accomplished through the extended air versions of the activated sludge process. The division also operates 81 sanitary lift stations and three storm sewer lift stations.

New Programs & Projects:

- Control of problems caused by hydrogen sulphide at treatment plant and lift stations through chemical treatment of sewage.
- Chemically treat sludge to concentrate solids for more effective hauling.
- Monitor and control lift stations to promote more even flow at treatment plant.
