# 1981-82 ANNUAL BUDGET

CITY OF  
NAPLES

# City of Naples

735 EIGHTH STREET, SOUTH - STATE OF FLORIDA 33940

OFFICE OF THE CITY MANAGER

October 27, 1981

Honorable Mayor and Members of City Council  
City of Naples  
City Hall  
735 Eighth Street, South  
Naples, Florida 33940

Gentlemen:

Presented for your review is a final balanced budget in the amount of \$20,071,184. This is broken down as follows:

General Fund Operating.....	\$ 7,282,655
Water & Sewer Enterprises....	\$11,008,332
Capital Improvements.....	\$ 1,780,197

This budget was formulated with the goal of holding the line on any unnecessary expenditures without decreasing service levels in any way. Although the total budget represents a substantial increase, 76% of that increase is attributable to large capital improvement projects in the water and sewer budgets.

## GENERAL FUND

The General Fund of \$7,282,655 represents a 10.6% increase (exclusive of the Parking Operation which was formerly under the Parking Authority) and includes a \$360,000 contingency fund to cover unanticipated costs, price increases and salary adjustments which are unknown at this time.

Major increases were due to energy costs, fuel costs, salary increases and inflation. The major departmental increases are in Police, Fire, and the assumption of responsibility for the Parking Operation.

## WATER & SEWER

The water and sewer budgets are up substantially this year by \$3,235,779 due principally to a \$2½-million increase in capital improvements, system expansion, higher electric costs and inflation.

### CAPITAL IMPROVEMENTS

The Capital Improvement Budget of \$1,780,197 represents numerous types of projects including \$720,397 in street and drainage work. Bike paths and three beach preservation/improvement projects are also funded in the coming year. In addition, Police and Fire Department equipment and facilities were funded as well as Public Works yard improvements and nine Parks & Recreation projects.

### REVENUES

The City remains in a sound financial position in adoption of the 1981-82 budget. The most significant increases in estimated revenues involve the electrical franchise fees of \$167,000; cigarette tax of \$27,000; state revenue sharing of \$17,000 and revenue from the Parking Operation of \$71,5000 which was previously under the Parking Authority. In addition, a sound investment program substantially increased our interest revenue and with numerous other smaller increases will generate sufficient total revenue for a balanced budget.

### PERSONNEL

With the approval of the recommended new positions and cuts in various departments/divisions we have attained a net reduction of two employees from the 1980-81 fiscal year.

### MILLAGE RATE

The millage rate was reduced by Council to 1.8643 which is slightly lower than last year's rate. This is the fifth consecutive year in which Council has reduced the millage rate using the value of new construction appearing on the tax rolls for the first time to provide the added tax revenue needed in this budget. Every taxpayer will receive a tax decrease and some decreases will be even greater due to the additional \$5,000 homestead exemption implemented this year for residents who have been here five or more years.

In his message presented with the preliminary 1981-82 budget, our late City Manager George Patterson predicted that it would be increasingly difficult to hold the line on taxes in the years to come. It is important to note that without significant technological advances the degree of improvements we are able to make in productivity will gradually diminish. To date the city administration has put into effect many productivity measures, innovative procedures, reorganizations, and has gone from a labor intensive to an equipment intensive operation as well as having increased our investment earnings and saved substantial sums in insurance and workers compensation costs. We, of course, will continue to seek out and implement cost savings wherever possible without decreasing the quality of service to our citizens.

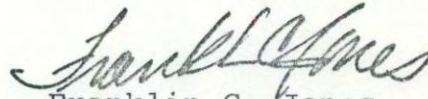

Mayor and Council  
October 27, 1981  
Page 3

I believe, as City Manager Patterson did, that this budget will allow us to continue to provide the services and effect worthwhile improvements in the year to come.

At the close of his preliminary budget message George Patterson acknowledged the assistance of his staff and department/division heads who contributed to preparation of the budget. At the time, as Finance Director, I had the opportunity of participating in this process and want to echo his compliments.

Respectfully submitted,

Franklin C. Jones,  
Acting City Manager

FCJ/jm

The City Council is the governing body of the City of Naples. The six Council members are elected from the City at large for four-year overlapping terms. The Mayor is elected for a two-year term. Municipal elections are held every even-numbered year.

The City Council adopts the long-range capital and annual operating budgets for the City, receives requests and suggestions for changes in policy, represents the community in relationships with other governmental and quasi-public organizations.

The City Council holds regular meetings the first and third Wednesday of each month at 9:00 a.m. to consider all matters requiring their determination. Informal conferences (workshops) are scheduled each preceding Tuesday at 9:00 a.m., and such special meetings and additional study sessions are held as necessary. Individual Council members also provide liaison with citizen groups and federal, state and county officials.

The City Clerk's office is a department to which other departments and the general public come for information regarding the operations of the City. City contracts, agreements, deeds, ordinances, resolutions, as well as numerous other miscellaneous documents are filed in this office. The City Council minutes are prepared and indexed, necessary correspondence is composed and related material indexed and filed. The City Clerk is charged with the responsibility for implementing and maintaining the microfilming system and with the responsibility of records retention. This office is also responsible for legal advertising of ordinances and public hearings. The Clerk and Deputy Clerk administer oaths, notarize documents, keep the municipal code up to date, sell city codes, charters and ordinances and have other duties.

New Programs and Projects

The microfilming program is progressing nicely and the office anticipates that Phase II of this program will be started by the beginning of the fiscal year.

The Building & Zoning Division is responsible for the plan check, permit issuance and inspection of all construction in the City; the enforcement of the City's zoning ordinance; the administration and processing of petitions relative to the City's Board of Appeals and Contractors' Examining Board; and for the preparation of various construction-related data and reports.

The Divisions' overall goal is to provide the highest level of plan check, inspection and enforcement services at the lowest possible cost.

The primary activities of 1981-82 will include the continuing efforts to enforce the minimum housing code requirements on a city-wide basis; eliminate non-conforming signs; and update policies, codes and procedures.

New Programs and Projects

To Enforce the city's property numbering ordinance

The Planning Division is responsible for the preparation, implementation and annual review of the City's comprehensive plan. It also maintains the zoning atlas and makes recommendations regarding amendment of the zoning ordinance consistent with the comprehensive plan and City Council policy.

The Division processes and makes recommendations concerning a variety of zoning ordinance related petitions including special exceptions, rezonings and variances, and is responsible for the annual review and revision of the zoning ordinance. In addition, the Division is responsible for processing subdivision plats, vacations of rights-of-way and easements, and administration of the City's rental assistance program.

The Division provides land use, population and economic data to the public, news media and other governmental agencies as well as providing assistance to property owners regarding land use controls, zoning interpretations and similar concerns. The Planning Division is responsible for coordinating land use development and planning activities of other governmental agencies with those of the City.

The Division's major activities in 1981-82 will include the continuing implementation of the Comprehensive Plan, annual review of the Zoning Ordinance, administration of the Section 8 Rental Assistance Program, review and revision of the Subdivision Regulations, coordination of grants for bikeways, beach improvements, and recreational facilities, and special studies and reports as requested by the City Manager and Community Development Director.

The Planning Division's goal is to provide professional planning services and expertise to aid the Planning Advisory Board and City Council in their decision-making and policy-setting activities.

New Programs and Projects

Completion of 1980 census data into an informational report.

This section within the Engineering Department provides administrative and technical support to the City Engineer. These support functions allow the department head to maintain management and cost controls/productivity within the Streets/Drainage Division and Traffic Control Section and, at the same time, as City Engineer, maintain responsible charge for all in-house roadway and utility design work. In addition, this section approves for permit and inspects all work within the city owned rights-of-way; provides engineering services for other departments within the city administration, as authorized by the City Manager; prepares plans, cost estimates and recommendations regarding priorities for the capital improvement programs involving streets, bike paths, and drainage projects; reviews/approves engineering aspects of water/sewer main extensions; investigates and offers remedies to citizen complaints within its area of responsibility; administers the city's energy conservation programs; and provides traffic engineering in evaluating improvements to the city street system.

New Programs & Projects

Will continue evaluation of more cost effective construction methods in street pavement restoration such as those utilizing asphalt recycling and implementations of improvements recommended by our Phase I, Traffic Operations Study.

Will begin implementations on Beach Management Study and Citywide Drainage Study improvements.

This division of the Engineering Department maintains the 117 miles of local streets within the City as well as the associated drainage systems. In addition to these functions, the division executes street reconstruction/repaving projects funded under the capital improvement program valued at approximately \$600,000 annually. Recent direct cost comparisons between this division's cost to complete and that of outside contractor costs on similar projects indicates a taxpayer savings of at least 30% which well justifies this division's involvement in the CIP. In general, approximately five miles of city streets are resurfaced and/or rebuilt each year.

New Programs & Projects

Grassed swale renovations per Citywide Drainage Study recommendations.

Study/investigate more energy efficient means of operating division equipment such as on-site refueling and replacement of part of dump truck fleet with crew cab vehicles.

The Traffic Control Section of the Engineering Department will continue to study, analyze, make recommendations and implement traffic safety and operational improvements. Some of these improvements will be major ones requiring capital expenditures while other small projects will only require minor sign, signal and pavement marking changes and will come from the regular operating budget.

The Section's routine missions include maintaining City-owned street lighting and traffic signals and markings.

New Programs & Projects

- Update speed limit signing.
- Begin installation of lane reflectors along major collectors.
- Evaluate thermoplastic pavement marking application cost effectiveness.
- Utilize grant funded microcomputer for accident history studies and better signal timing plans for U.S. 41
- Update street name signing along U.S. 41.

The Equipment Management Department is charged with the responsibility of maintenance from the preventive stage through rebuilding of components of wheel vehicles and special equipment. The organization consists of a Production Control Section and a General Maintenance Repair Section. The department goal is to maintain all City vehicles and designated equipment in a serviceable condition with a minimum of downtime and at the most economical rate possible.

New Programs and Projects

Initiate program for inspecting and repairing only as required.

Increase personnel capabilities and efficiency through advanced technical schooling.

Identify and rectify items which increase equipment repair costs, fleet cost, and abuse of equipment.

Develop and initiate a full set of operating procedures.

Establish a written system for surrender of old equipment through Equipment Management and receipt of new equipment and vehicles from the vendors.

Establish a system of quarterly conferences with department heads to discuss equipment needs.

Continue preparation of specifications for equipment standardization.

Final design and construction of the new garage area and fueling site.

Develop programs for on-the-job training and cross training.

Develop and implement systems and programs for total approach to vehicle care and maintenance.

Continue improvement and implementation of the organization structure.

The main objectives of fire protection are to prevent fires, to prevent loss of life, and to minimize property damage from fire. From the point of view of the city government, these objectives involve fire prevention and firefighting. This role has been expanded in recent years to include additional services of rescue and emergency medical aid and an extensive educational program.

New Programs & Projects

Begin enforcement of House Number Ordinance.

The Parks & Recreation Department is responsible for the development of new parks and the maintenance and safe management of existing parks. This department is also in charge of all recreational programs, both the initiation of new programs and the up-dating of those already established. In addition, it oversees the operation of such other department enterprises as the Bay Dock, Fishing Pier, tennis program and vending machine operation.

New Programs & Projects

Continued study of boat dock expansion, improvement, or enlargement.

Renovation and programming of Carver School recreation area which will be converted from an existing storage facility.

Complete programming of the Carver Site.

The Division of Personnel is responsible for the personnel and employee relations programs of the City. It directs the recruitment, screening, testing and orientation programs for new city employees; administers employee benefit programs; administers the wage and salary plans; directs the workers' compensation self-insurance plan and safety program; and administers the City's labor relations program. The Division has a staff of three full-time employees.

New Programs and Projects

Revision of the City's Personnel Manual.

Development of an expanded city performance testing program.

Development of a program to monitor and reduce personal injury and property damage claims.

Development of an Annual Employee Benefit Profile (Statement).

Conduct in-house training to increase employee productivity and supervisory training of labor relations.

The Parkways and Services Division of the Public Works Department provides the maintenance and development of the City's parkways and right-of-ways as well as other public lands not assigned to other departments. The Division also maintains the areas around City buildings and handles aquatic weed control in drainage lakes.

New Programs and Projects

Perform tree maintenance in areas of the City which have not been scheduled in previous years.

Expand tree maintenance program through use of new aerial bucket truck and root cutting machine.

General obligation bonds in the amount of \$2,000,000 were approved by Ordinance 997. This issue was sold on September 6, 1963. The proceeds from this sale were for the purpose of financing street improvements, acquiring lands for public parks and recreational facilities, including channel dredging and paying the costs of acquiring a site, erecting and equipping buildings thereon for use as central maintenance and repair facilities for the Public Works Department. On June 1, 1981 the outstanding balance is \$740,000. The bonds redeemed amount to \$1,260,000.

Principal payments during fiscal year 1981-82 will be \$95,000. Interest payments will be \$25,900. Bank fees will be \$169.

Along with the Water Distribution Division's regular work of maintaining and repairing the many miles of various sized water mains, both finished and raw water, utility locations, installation of water meters and the reading and repair, the following additional goals have been set.

New Programs & Projects

Continuation of the meter change-out and modernization program.

Continuation of valve location and turning program.

Continuing additional fire hydrant installation as recommended by the Fire Department.

Continuing monitoring and data collection regarding meter use, cross connection control and unauthorized connections.

The function of the Water Production Division is to process and deliver to the Distribution System an adequate and safe supply of high quality, softened and stabilized water. This is accomplished by the practice of multiple barriers through a modern, up-to-date lime softening plant. The entire staff is certified by the Department of Environmental Regulation.

This budget will cover the processing of 5,500,000,000 gallons of water.

Areas of responsibility by this Division are:

Operate and Maintain:

Three - 10 MGD softening units (accelerators)  
 Fourteen - Rapid sand and/or mixed media filters  
 Eleven - High service pumps  
 Fifty-seven - Wells  
 Geitz Pit facility  
 Three - Ground storage reservoirs and repump facilities  
Maintain - Quality of water to meet the "Safe Drinking Water Act"

New Programs & Projects

Practice operating procedures that will conserve energy.  
 Continue energy survey.

Survey procedures related to chemical treatment. (T.H.M.s)

Along with the Wastewater Collection's regular work of maintaining 94 miles of gravity sewer main line and the gravity sewer pipe involved in providing 7,778 sewer laterals and 1,709 manholes, the following additional goal has been set.

Continuation of the television program to identify failures and potential failures for repair, to reduce infiltration to the system and so that new streets dictated by the street improvement will not be constructed over faulty sewer lines.

The primary function of the Wastewater Treatment Division is to convert raw sewage to an acceptable effluent. The permitting agencies are the Department of Environmental Regulation and the Environmental Protection Agency. The parameters set by these agencies are met by the extended air version of the activated sludge processes.

The secondary responsibility of the Division is the maintenance, operation and revision of 91 sanitary lift stations and three storm water stations.

The Budget will treat 1,825,000,000 gallons of wastewater.

New Programs & Projects:

- 1) Monitoring and controlling of master stations to even the hydraulic loading on the Treatment Plant.
- 2) Phosphorus removal
- 3) Chlorinate return sludge to control filamentous organisms.
- 4) The revision of the sanitary lift stations listed in the Five Year Capital Improvement Program for the 1981-82 budget year.
  - 1) Prather's Laundry
  - 2) Pancake House
  - 3) Hawser and Spinnaker
  - 4) Cove Station
  - 5) C-3
