

**CITY OF NAPLES  
1983-84  
ANNUAL BUDGET**

# City of Naples

735 EIGHTH STREET, SOUTH - NAPLES, FLORIDA 33940

OFFICE OF THE CITY MANAGER

July 29, 1983

Honorable Mayor and Members of City Council  
City of Naples  
735 Eighth Street, South  
Naples, Florida 33940

Gentlemen:

Presented for your review is a balanced budget totaling \$17,515,531. This total is made up of the following categories:

General Fund Operating Budget.....	\$8,273,907
Water & Sewer Enterprise Funds.....	\$7,268,803
Non-enterprise Capital Improvements..	\$1,972,821

This budget was formulated with the goal of holding the line on any unnecessary expenditures without in any way decreasing service levels. In some instances we will be adding new projects and programs which are detailed on the cover sheets of the individual department or division budgets.

## GENERAL FUND BUDGET

The General Fund budget in the amount of \$8,273,907 proposes an increase in expenditures of \$417,780, or 5.3%. It also provides for a contingency fund in the amount of \$250,000 to cover unknown costs and salary adjustments as well as future price increases.

During the course of the budget review, departmental requests were reduced by \$526,000. One major reduction was the decision once again this year not to fund workers' compensation premiums in the amount of \$145,000. The success of our safety and self-insurance program has allowed us to operate our self-insurance fund so that additional funding for next year will not be necessary. Among the major reductions to the departmental budgets was the implementation of a departmental cost reduction program which we are going to call the "Management Improvement Program". We are setting a goal of

savings in each department's budget to be achieved through some action by that department which will increase productivity or reduce expenditures during the year. The balance of the reductions consists of the elimination of costs considered unnecessary; corrections in calculations; and adjustments due to expenditure histories and cost information which had been up-dated after the budgets were originally formulated by the departments.

In most instances, the budgets submitted by the departments indicated an attitude of holding the line and, in fact, we found it necessary to increase some costs where estimated cost increases appeared too conservative.

Outside of salaries, there were no significant increases within the departmental budgets.

#### WATER & SEWER BUDGETS

The water and sewer operating budgets remain essentially the same as last year. The total water and sewer budgets were reduced by \$898,523 because of the reduction in capital improvement projects for the next fiscal year.

#### CAPITAL IMPROVEMENT PROGRAM

The capital improvement budget totals \$1,972,821. Both major and minor projects are included among the various departments which will allow the City to acquire or replace capital facilities. The largest single total is \$831,000 allocated for 18 street projects throughout the City. Traffic signals, pavement marking, and drainage projects are also funded. Equipment purchases and improvement projects are also planned for the Fire, Parks & Recreation, and Police Departments. In addition, we have planned for the normal acquisition of equipment and improvements in our Public Works facilities.

#### REVENUES

The City remains in a sound financial position in adopting the budget as proposed. The most significant change in revenue is the City's share of the optional two-cent gas tax which the Collier County Commission passed earlier this summer. The revenue from that, totaling about \$200,000, will be used to fund street projects and allow us to free additional fifth cent sales tax revenue to be used in the General Fund. Among the general fund revenues there are some small increases and decreases which tended to balance each other. The additional revenue needed to support the increase in expenditures came from the additional new construction on our tax rolls.

Mayor and Council  
July 29, 1983  
Page 3

PERSONNEL

The proposed budget provides for a net reduction in personnel of two positions for next year. One position eliminated was that of internal auditor. We have identified that this work could be accomplished through the use of our external auditor. We also eliminated a water code inspector position by combining those duties with the meter operations supervisor.

CITY MILLAGE RATE

I am recommending a total millage rate of 1.4162 mills consisting of 1.3368 for general operating and .0794 for general obligation debt service. While this is a slight reduction in millage rates, it is the roll-back rate computed under the "Trim Bill" requirements which is the rate which would generate the same revenue as was received last year, based on changes to assessed value, exclusive of new construction. This means that we are levying the same taxes in 1983-84 as we did in 1982-83. Because of new construction added to our tax rolls, the total tax revenue collected will increase by \$44,540.

I believe the budget as recommended will allow us to continue our present high level of service and, with the addition of new programs and services for our citizens, enable us to accomplish many worthwhile improvements. This can be done within the revenue available, including a stable ad valorem tax levy. We were fortunate again this year to be able to identify cost savings within our city operations and to also receive the additional source of revenue from the optional two-cent gas tax. However, it will probably be increasingly difficult to achieve this goal in future years.

I would like to acknowledge with thanks and very substantial assistance I received from the Finance Director, my staff, and all of the department and division heads.

Respectfully submitted,

Franklin C. Jones  
City Manager

FCJ/tan

The City Council is the governing body of the City of Naples. The six Council members are elected from the City at large for four-year overlapping terms; the Mayor is elected for a two-year term. Municipal elections are held every even-numbered year.

The City Council adopts the long-range capital and annual operating budgets for the City, receives requests and suggestions for changes in policy, and represents the community in relationships with other governmental and quasi-public organizations.

The City Council holds regular meetings the first and third Wednesday of each month at 9:00 a.m. to consider all matters requiring their determination. Informal conferences (workshops) are scheduled on preceding Tuesday at 9:00 a.m., and such special meetings and additional study sessions are held as necessary. Individual Council members also provide liaison with citizen groups and federal, state, and county officials.

The City Clerk's office is a department to which other departments and the general public come for information regarding the operations of the City. City contracts, agreements, deeds, ordinances, resolutions, as well as numerous other miscellaneous documents, are filed in this office.

The City Council minutes are prepared and indexed, necessary correspondence is composed, and related materials indexed and filed.

The City Clerk is charged with the responsibility for implementing and maintaining the microfilming system and the responsibility for records retention. This office is also responsible for legal advertising of ordinances and public hearings. The Clerk and Deputy Clerk administer oaths; notarize documents; keep the municipal code up to date; sell city codes, charters, and ordinances; and have other duties.

All municipal elections are supervised by the City Clerk's office.

The Building and Zoning Division is responsible for the plan check, permit issuance, and inspection of all construction in the City; the enforcement of the City's Zoning Ordinance; the administration and processing of petitions relative to the City's Board of Appeals and Contractors' Examining Board; and for the preparation of various construction-related data and reports.

The Division's overall goal is to provide the highest level of plan check, inspection, and enforcement services at the lowest possible cost.

New Programs and Projects

- Eliminate non-conforming signs
- Enforce the City's property numbering ordinance
- Updating procedures for competency cards
- Implement a more expedient compliance to zoning violations through the use of a uniformed zoning compliance officer and, if necessary, the issuance of "Notice to Appear in Court" reports

The Planning Division is responsible for the preparation, implementation, and annual review of the City's comprehensive plan, maintenance of the zoning atlas, and the recommendation of zoning ordinance amendments consistent with the comprehensive plan and City Council policy.

The Division processes and makes recommendations concerning a variety of zoning ordinance-related petitions, including special exceptions, rezonings and variances, and is responsible for the annual review and revision of the zoning ordinance. In addition, the Division is responsible for processing subdivision plats, vacations of rights-of-way and easements, and administration of the City's Section 8 rental assistance program.

The Division provides land use, population and economic data to the public, news media and other governmental agencies, as well as providing assistance to property owners regarding land use controls, zoning interpretations and similar concerns. The Planning Division is responsible for coordinating land use development and planning activities of other governmental agencies with those of the City.

The Planning Division's goal is to provide professional planning services and expertise to the Planning Advisory Board and City Council in their decision-making and policy-setting activities.

The Division's major activities in 1983-84 will include the continuing implementation of the comprehensive plan, administration of the zoning ordinance and subdivision regulations, and administration of the Section 8 rental assistance program, and continued participation in the Metropolitan Planning Organization.

New Programs and Projects

- Five year review of Comprehensive Plan
- Continuation of comprehensive revision of Zoning Ordinance

This section of the Engineering Department provides administrative and technical support to the City Engineer. These support functions allow the department head to maintain management and cost controls/productivity within the Streets/ Drainage Division and Traffic Control Section and, at the same time, as City Engineer, maintain responsible charge for all in-house roadway and utility design work. In addition, this Section approves for permit and inspects all work within the City-owned rights-of-way; provides Engineering services for other departments within the city administration as authorized by the City Manager; prepares plans, cost estimates and recommends priorities for the capital improvement programs involving streets, bike paths, drainage, and traffic control projects; reviews/approves engineering aspects of water/sewer main extensions; investigates and offers remedies to citizen complaints within its area of responsibility; administers the City's energy conservation programs; provides traffic engineering in evaluating improvements to the city street system.

New Programs and Projects

- Continue evaluation of more cost effective construction methods in street pavement restoration such as those utilizing asphalt recycling.
- Complete implementations of Beach Management Study.
- Complete City Dock reconstruction project in function of project manager.
- Complete transfer of water treatment/water reclamation technical support to Utility Engineer.
- Utilize mini computer to update traffic control signings.

This Division maintains the 120 miles of local streets within the City as well as the associated drainage systems. In addition to these functions, the Division executes street reconstruction/repaving projects funded under the capital improvement program valued at approximately \$800,000 annually. Recent direct cost comparisons between this Division's cost to complete and that of outside contractor costs on similar projects indicates a taxpayer savings of at least 30 percent which well justifies this Division's involvement in the CIP. In general, approximately five miles of City streets are resurfaced and/or rebuild each year.

New Programs and Projects

- Expedite pavement surface crack repair program
- Relocate offices to vacated Public Works offices

The Traffic Control Section of the Engineering Department will continue to study, analyze, make recommendations and implement traffic safety and operational improvements. Some of these improvements will be major improvements requiring Capital Improvement funds while other small projects will only require minor sign, signal and pavement marking changes and will come from the regular operating budget.

New Programs and Projects

- Update traffic control signing
- Update U.S. 41 interconnect timing programs, both season and off season, to reflect changes in traffic generation patterns in last 18 months

The Equipment Management Department is charged with the responsibility of maintenance of wheel vehicles and special equipment from the preventive stage through the rebuilding of components and restoring unserviceable equipment to a serviceable condition with a minimum of downtime at the most economical rate. The organization consists of a repair supply section and a general maintenance/repair section.

New Programs and Projects

Improve inventory control and parts system with proposed new shelving, etc.

Develop and implement general control and accountability of the shop equipment as well as implement standard operating procedures.

Prepare guidelines for shop and fire safety for the new garage area.

Implement a work order flow chart and a production control board.

To identify items that contribute to increased equipment repair cost.

The main objectives of fire protection are to prevent fires, to prevent loss of life, and to minimize property damage from fire. From the point of view of the city government, these objectives involve fire prevention and fire fighting. This role has been expanded in recent years to include additional services of rescue and emergency medical aid and an extensive educational program.

New Programs and Projects

Consolidate dispatching with Police Department and upgrade present communication equipment.

Study possible fire insurance reclassification.

Develop computer data base and management information.

Upgrade first line supervisor training (National Fire Academy).

The Parks & Recreation Department is responsible for the development of new parks and the maintenance and safe management of existing parks. This department is also in charge of all recreational programs, both the initiation of new programs and the up-dating of those already established. In addition, it oversees the operation of such other department enterprises as the Bay Dock, Fishing Pier, tennis program and vending machine operation.

The employees of the Personnel Division perform administrative duties to ensure proper and effective personnel administration of City departments. The duties and responsibilities include operating comprehensive, valid and effective recruitment, selection and orientation procedures; directing the City safety program and workers' compensation plan; maintaining the City position classification and compensation plans; evaluating, administering and maintaining employee benefit plans; directing the City's labor relations program; monitoring employee evaluation systems; providing department heads with personnel management assistance; and processing and maintaining appropriate personnel information.

New Programs and Projects

Increased involvement in the development, administration and evaluation of effective productivity improvement training.

The Naples Police Department is responsible for protection of life and property within the city limits and, through 78 regular and six part-time employees, enforces city ordinances, state statutes and federal laws. The Department is divided as follows:

Uniform Division: Contains all patrol operations and includes three rotating patrol squads as well as the Special Operations Unit.

Services Division: Serves in a support capacity and includes communications, equipment and building maintenance and supplies; taxicab and wrecker inspection; school crossing enforcement; liaison with the courts; and the handling of property and evidence.

Administration Division: Serves in a support capacity and includes records/information; overall inspectional services; and computers.

Criminal Investigation Division: Units contained in this division are: crimes against property; crimes against persons; narcotics; vice; forensic lab; and crime scene.

New Programs and Projects

- Initiate "Safe House" program for children going to and from school.
- Fully implement Aide to the Elderly program.
- Acquire and initiate an automatic information system ("robot phone").
- Train selected personnel and form a dive, rescue and recovery team.
- Concentrate continued effort on residential burglaries and other crimes against property.

The Parkways & Services Division of the Public Works Department conducts the tree and landscape management programs on City parkways, rights-of-way, and properties. The Division maintains specific city buildings and beach step structures, and handles aquatic weed control in drainage lakes. It also assists other departments where its resources are applicable.

Division programs include administration of vacant lot mowing contract, lot clearing, curb edging and enforcement of City codes pertaining to landscapes.

The Division is called upon to deal with unpredictable events which may be obnoxious to or detrimental to the public welfare such as fish kills, floating pilings, and buried objects on the beaches.

New Programs and Projects

Study and implementation of labor-saving operational techniques, equipment, functional improvements, and plant growth regulators.

New Programs and Projects

1. Continue study and analysis of the use of compacting units, analysis of manpower, utilization, routing, energy conservation, safety equipment and practices.
2. Research methods and procedures for the maintenance and repair of commercial containers.
3. Continue to develop and improve the horticultural landfill site to its fullest potential and to DER requirements.
4. Research, reduction and processing of horticultural trash for reuse by service division and the public.
5. Research various methods of reducing trash for transporting if it should become necessary.
6. Research various methods and most economical way of transporting trash.
7. Develop routing and pick up capabilities through training, research of equipment and methods.

General obligation bonds in the amount of \$2,000,000 were approved by Ordinance 997. This issue was sold on September 6, 1963. The proceeds from this sale were for the purpose of financing street improvements, acquiring lands for public parks and recreational facilities, including channel dredging and paying the costs of acquiring a site, maintenance and repair facilities for the Public Works Department. On June 1, 1983 the outstanding balance is \$550,000. The bonds redeemed amount to \$1,450.00.

Principal payments during fiscal year 1983-84 will be \$100,000. Interest payments will be \$19,250. Bank fees will be \$155.

Along with the Water Distribution Division's responsibility includes maintaining and repairing many miles of various sized water mains for both finished and raw water; maintaining utility locations and installation, reading and repair of water meters.

New Programs and Projects

-Continuation of the following programs:

- Meter change-out and modernization
- Valve location and turning
- Additional fire hydrant installation as recommended by the Fire Department
- New program testing in the field of existing compound turbine meters of various sizes.

This budget will cover the processing of 5,500,000,000 gallons of water.

Areas of responsibility of this division include the following:

Operate & Maintain:

- 3 10-MGD softening units (accelators)
- 14 Rapid sand and/or dual media filter
- 11 High service pumps
- 59 Wells
- 3 Ground storage reservoirs and repump facilities
- All equipment related to washwater recovery and sludge removal

New Programs and Projects

- Proceed with trihalomethane eliminated program (ammoniation treatment for chlorimine formation)
- Maintain bacteria laboratory certification issued by the Department of Health and Rehabilitative Services

Along with the Wastewater Collection Division's regular work of maintaining gravity sewer lines, laterals, and manholes, the Division will continue its television inspection program. This effort has been successful in identifying line failures and potential line failures and thus reducing infiltration into the system.

<b>TOTAL</b>	<u>792,551</u>	<u>853,337</u>	<u>867,524</u>	<u>807,936</u>	<u>807,936</u>

The primary function of the Wastewater Treatment Division is to convert raw sewage to an acceptable effluent. The permitting agencies are the Department of Environmental Regulation and the Environmental Protection Agency. The parameters set by these agencies are presently met by the extended air version of the activated sludge processes.

The secondary responsibility of the Division is the maintenance, operation and revision of 91 sanitary lift stations and 3 storm water stations.

The budget will treat 2,044,000,000 gallons of wastewater.

New Programs and Projects

- Monitoring and controlling of master stations to even the hydraulic loading on the Treatment Plant
- Phosphorus removal
- Chlorinate return sludge to control filamentous organisms
- The revision of the sanitary lift station listed in the Five Year Capital Improvement Program for the 1983-84 budget year:
