City of Naples
1985-86
ANNUAL BUDGET

City of Naples

735 EIGHTH STREET, SOUTH - STATE OF FLORIDA 33940

OFFICE OF THE CITY MANAGER

August 1, 1985

Honorable Mayor and Members of City Council
City of Naples
735 Eighth Street, South
Naples, Florida 33940

Gentlemen:

Presented for your review is a balanced budget totaling \$24,297,710. This total is made up of the following categories:

General Fund Operating Budget.....	\$ 7,494,800
Intergovernmental Services.....	(939,684)
Water/Sewer Enterprise.....	11,556,965
Solid Waste Enterprise.....	1,489,160
City Dock Enterprise.....	287,858
Property Management/Lot Mowing Enterprise...	61,479
Non-enterprise Capital Improvements.....	<u>3,407,448</u>
	\$24,297,710

This budget was formulated with the goal of holding the line on any unnecessary expenditures without in any way decreasing the levels of service provided. At the same time we have under construction \$21-million worth of capital improvements that will meet not only our immediate needs, but in the case of the water and sewer utilities, provide facilities which will meet our needs for many years to come. In some instances, we will be adding new projects and programs which are detailed on the cover sheets of the individual department or division budgets.

GENERAL FUND BUDGET

The General Fund budget in the amount of \$7,494,800 proposes an increase in expenditures of \$307,455, or 4.2%. It will also provide for a contingency fund in the amount of \$200,000 to cover unknown costs and salary adjustments as well as future price increases.

During the course of the budget review, departmental requests were reduced by \$597,150. In most instances, the budgets submitted by the departments indicated an attitude of holding the line and, in fact, we found it necessary to increase some costs where estimated cost increases appeared too conservative. In some cases, the reductions

Mayor and Council
August 1, 1985
Page 2

consist of the elimination of costs considered unnecessary; corrections in calculations; and adjustments due to expenditure histories and cost information which had been up-dated after the budgets were originally formulated by the departments. Once again, we have elected not to fund any contributions to workers' compensation premiums as our safety and self-insurance programs have continued to meet those needs.

Outside of salaries, there were no significant increases within the departmental budgets.

UTILITIES/ENTERPRISE BUDGETS

This year we have grouped all the utilities/enterprise operations and their budgets total \$13,395,462. This includes the budgets for water, sewer, solid waste, property management, and dock operation. A significant amount in this category is being budgeted to provide for regular capital expenditures and for the expansion of the wastewater treatment plant. In addition, the budget for sewer operations includes anticipated operating increases due to the wastewater treatment plant expansion and added debt services costs associated with that expansion.

CAPITAL IMPROVEMENT PROGRAM

The capital improvement program budget totals \$3,201,448. Both major and minor projects are included among the various departments which will allow the City to acquire or replace capital facilities needed to provide our regular services. The largest single total is \$767,800 allocated for 15 street projects throughout the City. Traffic signals, pavement marking, and drainage projects are also funded. Equipment purchases and improvement projects are also planned for the Fire, Community Services, and Police Departments.

REVENUES

The City remains in a sound financial position in adopting the budget as proposed. While the total budgeted general fund revenues are \$420,300 greater than the prior year, there are a number of items which have increased or decreased this year which affect the individual categories. The passage last year of the two-cent gas tax has allowed us to use \$200,000 for street maintenance provided through the general fund; ad valorem taxes were up \$17,000 due to new construction on our tax roll; fees and franchises will provide an additional \$157,000 in revenue due to growth in these individual areas; growth in the categories of fines and charges for service will

Mayor and Council
August 1, 1985
Page 3

provide an additional \$100,000; and state and federal shared revenues are budgeted at the same levels as the current year.

We anticipate that the current year's operations will generate a surplus that will provide \$127,700 in beginning cash revenue for next year.

PERSONNEL

The proposed budget provides for a net increase of seven positions. Five positions were added in the wastewater treatment division to provide for the operation of the plant expansion and effluent reuse system. Those positions were budgeted for six months of the fiscal year to coincide with the plant opening.

We have added a communications operator in the Police Department due to increased volumes of calls and assumption of Fire Department dispatching. We have also added a lieutenant in the Fire Department to provide a position for a training and safety officer who will serve not only the Fire Department but all city departments.

Other personnel changes include the elimination of one position in the Solid Waste Division. One of the additional positions shown in the Community Services Department was the result of the conversion of two current part-time positions to one full-time.

CITY MILLAGE RATE

I am recommending a total millage rate of 1.2294 mills consisting of 1.1605 for general operating and .0689 for general obligation debt service. While this is a slight reduction in millage rates, it is the roll-back rate computed under the "Trim Bill" requirements which is the rate which would generate the same revenue as was received last year, based on changes in assessed value, exclusive of new construction. This means that we are levying the same taxes in 1985-86 as we did in 1984-85. Because of new construction added to our tax rolls, the total tax levy will increase by \$35,078.

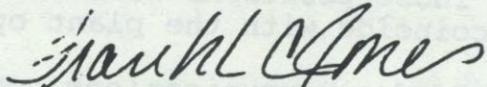

I believe that the budget as recommended will allow us to continue our present high level of service and, with the addition of new programs and services for our citizens, enable us to accomplish many worthwhile

Llano
Mayor and Council
August 1, 1985
Page 4

improvements. This can be done within the revenue available, including a stable ad valorem tax levy. We are fortunate again this year to be able to identify cost savings within our city operations and to also receive additional revenue from several sources. However, it will probably be increasingly difficult to achieve this goal in future years.

I would like to acknowledge with thanks the very substantial assistance I received from the Finance Director, my own staff, and from all of the department and division heads.

Respectfully submitted,

Franklin C. Jones
City Manager

FCJ/tan

The City Council is the governing body of the City of Naples. The six Council members are elected from the City at large for four-year overlapping terms; the Mayor is elected for a single four-year term. Municipal elections are held every even-numbered year.

The City Council adopts the long-range capital and annual operating budgets for the City, receives requests and suggestions for changes in policy, and represents the community in relationships with other governmental and quasi-public organizations.

The City Council holds regular meetings the first and third Wednesday of each month at 9:00 a.m. to consider all matters requiring their determination. Informal conferences (workshops) are scheduled on preceding Tuesday at 9:00 a.m., and such special meetings and additional study sessions are held as necessary. All Council meetings are open to the public. Individual Council members also provide liaison with citizen groups and federal, state, and county officials.

The City Clerk's office is the central depository for documents regarding the operations of the City. City contracts, agreements, deeds, ordinances, resolutions, as well as numerous other miscellaneous documents, are filed in this office.

The City Council minutes are prepared and indexed, necessary correspondence is composed, and related materials indexed and filed.

The City Clerk is charged with the responsibility for implementing and maintaining the microfilming system and the responsibility for records retention. This office is also responsible for legal advertising of ordinances and public hearings. The Clerk and Deputy Clerk administer oaths; notarize documents; keep the municipal code up-to-date; sell City codes, charters and ordinances; and have other duties.

All municipal elections are supervised by the City Clerk's office.

The Building & Zoning Division is responsible for the plan check, permit issuance, and inspection of all building-related construction in the City; the enforcement of the City's zoning ordinance; the administration and processing of petitions relative to the City's Board of Appeals and Contractors Examining Board; and for the preparation of various construction related data and reports.

The Division's overall goal is to provide the highest level of plan check, inspection, and enforcement services at the lowest possible cost.

New Programs and Projects

Establish new permitting and inspection process for electric, plumbing, and air conditioning permits which ensures payment of all fees prior to any inspections being made.

Record monthly and quarterly building permit data on new computer; transfer competency card information into new computer.

The Planning Division is responsible for the preparation, implementation, and annual review of the City's comprehensive plan, maintenance of the zoning atlas, and the recommendation of zoning ordinance amendments consistent with the comprehensive plan and City Council policy. The Division processes and makes recommendations concerning a variety of zoning ordinance related petitions, including special exceptions, rezonings, and variances, and is responsible for the annual review and revision of the zoning ordinance. The Division is also responsible for processing subdivision plats, and for the vacation of rights-of-way and easements.

The Division provides land use, population and economic data to the public news media and other governmental agencies, as well as providing assistance to property owners regarding land use controls, zoning interpretations and similar matters. The Planning Division also coordinates land use development and planning activities of other governmental agencies with those of the City.

The Planning Division's goal is to provide professional planning services and expertise to the Planning Advisory Board and City Council in their decision-making and policy-setting activities.

In 1985-86, the Division's major activities will include the continuing implementation of the comprehensive plan, administration of the zoning ordinance and subdivision regulations, continued participation in the Metropolitan Planning Organization, and review and preparation of amendments to the zoning ordinance.

The Community Services Department is responsible for the development of new parks and the maintenance and safe management of existing parks. This department is also in charge of all recreational programs, both the initiation of new programs and the up-dating of those already established. In addition, it oversees the operation of such other department enterprises as the City Dock, Fishing Pier, tennis program and vending machine operation.

The Parks & Parkways Division of the Community Services Department is responsible for providing the turf and landscape management programs in the City parks, parkways, rights-of-way and municipal properties. The Division designs, installs and maintains all new landscape and irrigation projects. It also coordinates all horticultural spray programs and aquatic weed control in the storm drainage system.

The Parks & Parkways Division administers the Property Management Division. Responsibilities include the mowing of vacant lots, lot clearing, curb edging and enforcement of City codes pertaining to landscape growth.

The Division assists other departments when its resources are requested. It is also called upon to manage unpredictable events such as fish kills, floating pilings and objects buried on the beaches.

New Programs and Projects

The Parks & Parkways Division is in its second year of a three year plan to renovate and landscape Fleischmann Park. This year a majority of the landscaping work will be completed.

This will be the first year of our public relations program between the division and individual property owner associations. Annual meetings are held to discuss current division programs and to obtain ideas and input for future projects. At the same time the association representatives are provided information about the division's abilities and areas of responsibility.

This section within the Engineering Department provides administrative and technical support to the City. These support functions allow the department to maintain management and cost controls/productivity within the Streets & Drainage Divisions and Traffic Control Section and at the same time, conduct in-house roadway design and construction work.

In addition, this section approves permits for and inspects all work within the City owned rights-of-way; provides engineering services for other departments within the City; prepares plans, cost estimates and recommends priorities for the capital improvement projects; investigates and offers remedies to citizen complaints within its area of responsibility; administers the City's energy conservation programs; provides traffic engineering in evaluating improvements to the City street system.

The Traffic Control Section of the Engineering Department will continue to study, analyze, make recommendations and implement traffic safety and operational improvements. Some of these improvements will be major improvements requiring Capital Improvement funds while other small projects will only require minor sign, signal, and pavement marking changes and will come from the regular operating budget.

New Programs and Projects

Update U.S. 41 signal systems to facilitate pedestrian traffic and signal management systems.

Replace 1978 vintage stop signings.

Maintain expanded Idle Speed Boating Zone signings.

Maintain Swimming Zone marker buoys.

FIRE

Summary

ACTUAL EXPENDITURES 1983-84	ANNUAL BUDGET 1984-85	DEPARTMENT REQUEST 1985-86	CITY MANAGER RECOMMENDATION 1985-86	COUNCIL APPROVAL 1985-86
EMPLOYEE SERVICES	795,320	956,748	910,813	910,813
MAINTENANCE & OPERATION	84,450	93,148	85,830	85,830
CAPITAL OUTLAY	9,735	16,710	13,740	13,740
TOTAL	889,505	1,066,606	1,010,383	1,010,383

The main objectives of fire protection are to prevent fires, to prevent loss of life, and to minimize property damage from fire. From the point of view of the City government, these objectives involve fire prevention and fire fighting. This role has been expanded in recent years to include additional services of rescue and emergency medical aid and an extensive educational program.

The Naples Police Department is responsible for protection of life and property within the City limits and enforces City ordinances, state statutes and federal laws. The Department is divided as follows:

Uniform Division: Contains all patrol operations and includes three rotating patrol squads as well as the Special Operations Unit.

Services Division: Serves in a support capacity and includes communications, equipment and building maintenance and supplies; wrecker inspection; school crossing enforcement; liaison with the courts; and the handling of property and evidence.

Administration Division: Serves in a support capacity and includes records/information; overall inspectional services; and computers.

Criminal Investigation Division: Units contained in this division are: crimes against property; crimes against persons; narcotics; vice; forensic lab; and crime scene.

Along with the Water Distribution Division's regular work of maintaining and repairing the many miles of various sized water mains (both treated and raw water), utility locations, installation of water meters, and the reading and repair of water meters, the following programs will be continued:

- Meter change out
- Additional fire hydrant installation as recommended by the Fire Department
- Valve location and exercising

The Division will also be actively involved in the upcoming effluent reuse distribution lines.

Along with the Wastewater Collection Division's normal responsibility of maintaining gravity sewer lines, force mains, laterals, and manholes, the Division will continue its television inspection program. This program is a very successful program as it has enabled us to effectively identify and correct infiltration of ground water run off into the gravity sewer system.

We will continue all programs effecting reductions in infiltration into the system by rehabilitation of manholes, replacement of faulty pipe, chemical grouting of pipes when possible, and slip-lining of pipes when cost effective.

The primary function of the Wastewater Treatment Division is to convert raw sewage to an acceptable effluent. The permitting agencies are the Department of Environmental Regulation and the Environmental Protection Agency.

The existing treatment capacity is 6 M.G.D. with an existing contract of \$10,100,000 for expansion of the treatment capacity to 8.5 M.G.D.

The wastewater treatment facility has a total budgeted work force of 23 personnel of which ten are certified wastewater treatment operators, and the remaining personnel are utilized in the maintenance of the plant and 94 sanitary lift stations and three storm water stations.

The treatment facility operates 24 hours a day; it is required to be manned only 16 hours of those 24 hours. At the time the expansion is completed, it will be required to man the treatment facility 24 hours per day.

This budget will treat 5.6 M.G.D. of wastewater.

General obligation bonds in the amount of \$2,000,000 were approved by Ordinance 997. This issue was sold on September 6, 1963. The proceeds from this sale were for the purpose of financing street improvements, acquiring lands for public parks and recreation facilities, including channel dredging and paying the costs of acquiring a site, maintenance and repair facilities for the Public Works Department. On June 1, 1985 the outstanding balance was \$345,000. The bonds redeemed amount to \$1,655,000.

Principal payments during fiscal year 1985-86 will be \$110,000; interest payments will be \$12,075; and bank fees \$145.

new \$2,000,000.00 to the same amount of \$2,000,000.00 more
on May 1st, 1986. This was due to the fact that the principal
of \$2,000,000.00 was not paid until May 1st, 1986. The interest
was calculated based on the principal amount of \$2,000,000.00
from May 1st, 1986 to May 1st, 1987. The interest was \$118.25.
The total amount paid was \$2,106.00.
