TO: A. William Moss, City Manager<br>FROM:: Ann Marie S. Ricardi, Finance Director<br>DATE:<br>November 15, 2012<br>SUBJECT: Quarterly Financial Report - September 2012

Attached is the Fourth Quarter Financial Report. The four part report includes:

- Monthly financial reports for budgeted operating funds
- Capital expenditures report
- Attorney fees report and
- The investment portfolio

The financials are prepared on a cash basis and represents unaudited data. Note that the report indicates $99 \%$ of fiscal year, although the report is through September 30. This is because transactions are still occurring for FY11-12 that will affect the final figures for this fiscal year.

Interest earnings were a disappointment overall for all funds, earning a dismal average of $7 / 10 \%$. However part of the reason why the interest income appears lower is because the city must record the value of investments at current market value. Although typically the City holds an instrument until maturity, any interim fluctuation downward in the value (due to the desire for buyers to obtain a higher interest rate) is required to be recorded. Thus, the city has to record unrealized gains or losses. For the General Fund alone, this unrealized loss is $\$ 37,200$, and for all funds is $\$ 112,312$, despite that there is not, nor will there be, a loss on the assets. The unrealized loss represents the recording of the difference between the face value and the market value. However, interest income is a small part of each fund's budget. Other revenues were generally where expected.

Expenditures for salaries and benefits had many variations from budget. Part of this was due to a seemingly high number of employees retiring, thus getting payouts of accrued leave, in accordance with policy. However, the 2011-12 budget was prepared without having full information about the union contracts, and this lack of definitive information affected the budget-to-actual comparisons for the fiscal year.

## General Fund Highlights:

As of September 30, 2012, the budgeted expenditures of the City's General Fund are $\$ 35,156,490$, and the budgeted revenues are $\$ 34,350,689$ The budget also appropriates fund balance in the amount of $\$ 805,801$. Current projections indicate that fund balance will not be used, and there will be a positive cash flow of almost $\$ 400,000$. However, this remains a preliminary estimate and this could change.

Fthics above all else... Service to others before self... Quality in all that we do.

## Revenue:

- Total General Fund revenue collected through September 2012 was $\$ 34.7$ million, or just slightly more than budgeted.
- The largest revenue, Taxes (ad valorem taxes, payment in lieu of taxes and telecommunications tax) is consistent with prior years' experience. Total taxes collected are $102.8 \%$ of budget and $0.7 \%$ more than last year. Ad Valorem Taxes collected were $\$ 222,010$ more than budgeted, due to collections being greater than the 95\% budgeted.
- Interest earnings of $\$ 91,095$ represents only $36 \%$ of the budgeted revenue, significantly below budget as noted above.

## Expenditures:

- Nearly all expenditures have been posted as of the date of this report. However, adjusting entries are still being reviewed and analyzed. Typical items found at this time include miscoded items or prepaid expenditures that need to be recorded in FY 12-13.
- Police and Fire-Rescue Department are the only two departments showing over budget at this time. These overages are partially due to unbudgeted leave payouts of a high number of retiring employees.
- Other departments affected by large leave payouts include the Mayor's office and the City Clerk.
- Staff will continue to perform line item analyses to ensure that the fiscal year end financial reports accurately represents results.

## Building Fund

Although preliminary, the Building fund shows a $\$ 659,000$ increase in fund balance, although the budget projected a consumption of fund balance in the amount of \$680,181. The reason for this unexpected increase in fund balance was that permit revenue was $\$ 1.2$ million higher than budgeted. This increase in activity has resulted in 5.75 positions being added to the fund to help deal with the increased level of permits. Another position may be requested prior to mid-year 2012-13.

## East Naples Bay Taxing District

This district shows a negative cash flow, although costs and revenues were as expected. The East Naples Bay Dredging project will cost approximately $\$ 2.096$ million in total, with $\$ 1.4$ expended in FY 11-12, and the remaining $\$ 700,000$ will be encumbered and carried into FY 12-13 for project completion, expected in June 2013. The fund received a loan from four major funds in the amount of $\$ 1,606,000$ for this project. The loan will be repaid in accordance with loan terms approved by City Council, over an approximate 11 year period.

## Community Redevelopment Agency

The CRA revenues are slightly less than budgeted, primarily because interest earnings did not meet expectations. Expenditures were under budget. The fund shows a negative cash flow of $\$ 490,000$. This is less than the budgeted negative cash flow because two capital projects, Four Corners Intersection $(\$ 200,000)$ and Parking Garage Gates $(\$ 50,000)$ were delayed, the former until FY 12-13, and the latter indefinitely.

## Streets Fund

The Streets fund year end results, with a negative cash flow of $\$ 248,000$, is slightly deceiving, due to a large encumbrance for the annual street paving project that will not show as an expense on this report. Street paving contracts encumbered but not expended for the year equal nearly $\$ 400,000$; these contracts and budgets will be carried into FY 12-13. Aside from the carryforward, revenues and expenditures are consistent with budget.

## Water and Sewer Fund

Like the Streets fund, the Water Sewer fund may be slightly deceiving, due to large encumbrances that are not showing as an expense, but will be carried forward and expended in FY 12-13.

## Revenue highlights:

- In March 2012, the city refinanced $\$ 13$ million of outstanding debt of the water sewer fund at a reduced interest rate.
- Revenues were slightly less than budgeted and slightly less than last year, but one revenue accrual is still pending.

## Operating Expenditures highlights:

- Expenditures were below budget.
- The most significant increase in the expenditures is the Bond Expense for the recent refinancing of $\$ 13$ million.
- There is a positive cash flow but major capital projects totaling more than $\$ 5$ million are encumbered and will be carried forward into FY 12-13.

## Solid Waste Fund

The Solid Waste Fund's budget assumed the use of $\$ 2.1$ million in Fund Balance for FY11-12, due to a major project (Recycling Transfer Site) to be located near the airport. However, the project was delayed (not encumbered) and will be requested for reconsideration in FY 12-13.

## Equipment Services Fund

This report shows a use of $\$ 105,205$ fund balance in the fund, even though expenditures were less than budgeted. The decrease in fund balance is due to a change in billing protocol. During FY 2011-12 the department used a new billing protocol, and did not adjust the billing rate. Services were billed at the former $\$ 80$ per hour (not knowing how the flat rate charges would impact operating budgets) instead of the calculated rate of \$88 per hour. Staff will update the hourly rate for FY 12-13 to the calculated rate.

## CAPITAL EXPENDITURES REPORT

Capital expenditure projects are listed by fund, department and project. This report includes actual expenditures and encumbrances. This report will not tie to the fund reports in the first section, because this includes encumbrances, while the first section does not.

## ATTORNEY FEES REPORT

This report is designed to give a comprehensive and historical view of the attorney fees paid by the City.

## INVESTMENT REPORT

The investments and cash for the City total $\$ 93$ million. The balances are in compliance with the Investment Policy.
