**SECTION 1.04. FINDINGS.** It is hereby ascertained, determined and declared as follows:

(A) The Assessment Ordinance provides the procedure for establishing assessment areas within which the City may impose and collect special assessments to finance local improvements.

(B) In accordance with Section 2-742 of the Assessment Ordinance, the City adopted Resolution 08-12256 to set forth a process by which a neighborhood association, on behalf of the property owners comprising such association, may submit a petition seeking creation of an assessment area for purposes of funding local improvements serving such area.

(C) In accordance therewith, the Aqualane Shores Association submitted a petition seeking creation of an assessment area to fund the Utility Improvements. The City then conducted a mail ballot survey of property owners which closed on April 15, 2019, and such ballots demonstrated property owner support in excess of the 51% threshold required by Resolution 08-12256 in order for the Council to consider moving forward with establishment of the Aqualane Shores Utility Extension Assessment Area.

(D) Public utilities such as natural gas and fiber-based broadband service provide extensive public benefits as well as special benefits to the real property for which such utilities are made available.

(E) Natural gas is recognized as the cleanest burning fossil fuel since it releases substantially less carbon dioxide than coal or oil and results in negligible emissions of sulfur dioxide, mercury and particulates compared with other fuels, such that the increased use of natural gas offers a significant contribution to improved air quality and results in both immediate and long-term benefits for public health and the environment.

(F) The increased use of natural gas advances the public policy and energy goals of the State of Florida by reducing carbon and other greenhouse gas emissions resulting from the production and consumption of electricity.

(G) Natural gas alleviates the burden of energy consumption for Assessed Parcels which are further benefitted by having natural gas available as an alternative energy source for heating, cooking, water heating and other applications, in many cases resulting in lower energy bills compared with properties which rely solely on electricity produced from coal or oil.

(H) Fiber-based broadband connectivity conveys a wide range of economic, social, educational and health benefits by delivering ultrafast connection speeds which enable work-from-home opportunities, educational and long-distance learning opportunities, home entertainment, home and business automation, telemedicine, civic participation and community involvement.

(I) High speed internet access afforded by the Fiber Optics Facilities will enable professionals in marketing, finance, design, customer care, programming, and a number of other computer based fields to work from home, giving these individuals a chance to live where they want and eliminate commuting time.

(J) The Fiber Optics Facilities will convey educational and enrichment opportunities for every age group as colleges, adult education programs and other forms of virtual schools emerge.

(K) The Fiber Optics Facilities will facilitate: (i) bandwidth-intensive uses such as telemedicine and telehealth by which health care professionals can evaluate, diagnose and treat patients remotely using telecommunications technology, allowing patients to access medical expertise quickly, efficiently and without travel, (ii) aging in place and independent living by enabling the use of and reliance upon a wide array of current and future technology from voice activated devices to monitoring systems to panic alarms, and can have a profound impact on quality of life for senior citizens, the disabled, and the people who care for them; and (iii) expansion of the "internet of things" providing for operation of a host of interrelated and interconnected computing devices, mechanical and digital machines, electronics and other equipment that relies on high-speed connectivity and communications, thereby enriching quality of life and property enjoyment.

(L) Fiber facilities are more reliable and less prone to downtime and outages than copper-based technology.

(M) The Fiber Optics Facilities will accommodate current and future bandwidth-intensive uses such as streaming voice and video on demand applications, and is highly scalable in allowing for future uses.

(N) Fiber optic cables use light instead of electrical currents for communication, such that they are more secure when used in communication and the information that is passed is protected from tapping by malicious users.

(O) A 2015 study commissioned by the Fiber to the Home Council Americas (FTTH) found that the impact of fiber on property values can be more than three percent.

(P) Undertaking installation of the Fiber Optics Facilities in conjunction with the Natural Gas Facilities will allow for placement of the fiber optics lines underground, resulting in aesthetic benefits by avoiding addition of unsightly overhead facilities and reliability benefits by minimizing outages which might otherwise occur during wind or storm events, thereby benefitting Assessed Parcels.

(Q) The development, construction, installation, delivery and funding of the Utility Improvements will immediately increase the available utility, value, marketability, enjoyment and use of Assessed Parcels.

**ARTICLE II  
NOTICE AND PUBLIC HEARING**

**SECTION 2.01. ESTIMATED CAPITAL COST.**

The estimated Capital Cost for the Natural Gas Facilities is \$1,029,203. The estimated Capital Cost for the Fiber Optics Facilities is \$331,371, for a total estimated Capital Cost of \$1,360,840 to fund the Utility Improvements. The Capital Cost of the Natural Gas Facilities will be substantially funded through the imposition of Assessments against property located in the Aqualane Shores Utility Line Extension Assessment Area in the manner set forth in Article III hereof. The Capital Cost of the Fiber Optics Facilities represents a small portion of the overall cost of providing such facilities. The balance of costs will be paid for by the utility provider.

**SECTION 2.02. ASSESSMENT ROLL.**

(B) The Assessment Roll shall be maintained on file in the Office of the City Clerk and open to public inspection. Re: Parcel Number [Insert Number]

Assessment for utility line extension

Dear Property Owner:

The City Council of the City of Naples, Florida (the "City") is considering the imposition of special assessments to pay for the extension of natural gas and fiber optic utility lines and facilities in the Aqualane Shores Utility Extension Assessment Area consisting of properties in the area commonly known as Aqualane Shores, including the parcel referenced above. In the event such charges are not prepaid, the City Council will impose an annual non-ad valorem assessment on such properties in order to fund a portion of the costs of constructing such improvements. The total revenue to be collected by the City through non-ad valorem assessments is estimated to be \$1,360,714 together with other costs associated with financing and collection of the assessments.

The assessment for each improved parcel of property will be based on the type of property and whether it currently has the natural gas line on the property as of the date the assessment is imposed. A more specific description of the assessment program including a description of the Aqualane Shores Utility Extension Assessment Area is included in the Initial Assessment Resolution adopted by the City Council on May 1, 2019. Copies of the Initial Assessment Resolution and the preliminary assessment roll are available for review at the offices of the City Clerk at City Hall, 735 8th Street South, Naples, Florida, and online at [www.naplesgov.com](http://www.naplesgov.com). Information regarding the assessment for your specific property is attached to this letter.

Each property will be assessed based on the number of equivalent dwelling units (EDU). Condominiums will be assumed to be 0.25 of an EDU. The assessment may be prepaid in full at the option of the property owner. The prepayment option enables you to avoid interest and financing costs. If the assessments are imposed, you will receive a separate notice of the date and place for optional prepayment. If you do not prepay your assessment, the assessment will be collected in annual installments over a period not to exceed four (4) years on your ad valorem tax bill with the first payment on the bill to be mailed in November 2020. The annual assessment will include your share of the principal, interest, and amounts related to collection of the assessments. Each assessment shall be subject to mandatory prepayment of the balance due upon sale or transfer of the property. Florida law provides that failure to pay your assessments will cause a tax certificate to be issued against the property which may result in a loss of title.

Certain properties in the proposed assessment area already have natural gas lines available, in which case such properties shall only be assessed for the fiber optics facilities. The following table shows the assessment rates per dwelling unit type for residential property.

Property type	One-time Payment	or	Annual Payment over 4 years
Single family, both gas and fiber optics	\$2,712		\$747
Single family, fiber optics only	\$627		\$172
Condominium unit, both gas and fiber optics	\$678		\$187
Condominium unit, fiber optics only	\$156		\$43

The City Council will hold a public hearing at 11:00 a.m. on June 5, 2019, at the City Council Chambers, 735 8th Street South, Naples, Florida, for the purpose of receiving comments on the proposed assessment area and the assessments, including collection on the ad valorem tax bill. You are invited to attend and participate in the public hearing or to file written objections with the City Manager at any time prior to or during the public hearing.

If you decide to appeal any decision made by the City Council with respect to any matter considered at the hearing, you will need a record of the proceedings and may need to ensure that a verbatim record is made, including the testimony and evidence upon which the appeal is to be made. In accordance with the Americans with Disabilities Act, if you need a special accommodation or an interpreter to participate in this proceeding, please contact the City Clerk at least forty-eight (48) hours prior to the date of the hearing.

If you have any questions, please contact the Finance Director at 239-213-1812.
