If the proposer receives an award as a result of its proposal submission, failure to have made such investigations and examinations will in no way relieve the proposer from its obligation to comply in every detail with all provisions and requirements of the contract documents, nor will a plea of ignorance of such conditions and requirements be accepted as a basis for any claim whatsoever by the contractor for additional compensation.

38. CERTIFICATES AND LICENSES: The Contractor, at time of proposal, shall possess the correct occupational licenses, all professional licenses or other authorizations necessary to carry out and perform the work required by the City of Naples and Collier County for this project pursuant to all applicable Federal, State and Local Laws, Statutes, Ordinances, and rules and regulations of any kind.

If the contractor believes that any particular work is not within the scope of the project, is a material change, or will otherwise require more compensation to the contractor, the contractor must immediately notify the City in writing of this belief. If the City believes that the particular work is within the scope of the contract as written, the contractor will be ordered to and shall continue with the work as changed and at the cost stated for the work within the scope.

40. CONTRACTOR PERSONNEL: The City of Naples shall, throughout the life of the contract, have the right of reasonable rejection and approval of staff or subcontractors assigned to the work by the contractor. If the City reasonably rejects staff or subcontractors, the contractor must provide replacement staff or subcontractors satisfactory to the City in a timely manner and at no additional cost to the City. The day-to-day supervision and control of the contractor's employees and sub-contractors is the responsibility solely of the contractor.

- 42. EXCEPTIONS:** Proposers taking exception to any part or section of the solicitation shall indicate such exceptions on the proposal form. Failure to indicate any exception will be interpreted as the proposer's intent to comply fully with the requirements as written. Conditional or qualified proposals, unless specifically allowed, shall be subject to rejection in whole or in part.
- 43. FAILURE TO DELIVER:** In the event of the contractor to fail to deliver services in accordance with the contract terms and conditions, the City, after due oral or written notice, may procure the services from other sources and hold the contractor responsible for any resulting purchase and administrative costs. This remedy shall be in addition to any other remedies that the City may have.
- 44. FAILURE TO ENFORCE:** Failure by the City at any time to enforce the provisions of the contract shall not be construed as a waiver of any such provisions. Such failure to enforce shall not affect the validity of the contract or any part thereof or the right of the City to enforce any provision at any time in accordance with its terms.
- 45. FORCE MAJEURE:** The contractor shall not be held responsible for failure to perform the duties and responsibilities imposed by the contract due to legal strikes, fires, riots, rebellions and acts of God beyond the control of the contractor, unless otherwise specified in the contract.

The proposer may also be required to give a past history and references in order to satisfy the City in regard to the proposer's qualifications. The City may make reasonable investigations deemed necessary and proper to determine the ability of the proposer to perform the work, and the proposer shall furnish to the City all information for this purpose that may be requested. The City reserves the right to reject any proposal if the evidence submitted by, or investigation of, the proposer fails to satisfy the City that the proposer is properly qualified to carry out the obligations of the contract and to complete the work described therein. The records so created shall be open to inspection by the City.

- 50. - 51. REQUIREMENTS CONTRACT:** During the period of the contract, the contractor shall provide all the services described in the contract. The contractor understands and agrees that this is a requirements contract and that the City shall have no obligation to the contractor if no services are required. Any quantities that are included in the scope of work reflect the current expectations of the City for the period of the contract. The amount is only an estimate and the contractor understands and agrees that the City is under no obligation to the contractor to buy any amount of services as a result of having provided this estimate or of having any typical or measurable requirement in the past. The contractor further understands and agrees that the City may require services in excess of the estimated annual contract amount and that the quantity actually used whether in excess of, or less than, the estimated annual contract amount and that the quantity actually used shall not give rise to any claim for compensation other than the total of the unit prices in the contract for the quantity actually used.
- 52. TERMINATION FOR CONVENIENCE:** The performance of work under the contract may be terminated by the City in whole or in part whenever the City determines that termination is in the City's best interest. Any such termination shall be effected by the delivery to the contractor of a written notice of termination of at least seven (7) days before the date of termination, specifying the extent to which performance of the work under the contract is terminated and the date upon which such termination becomes effective. After receipt of a notice of termination, except as otherwise directed, the contractor shall stop work on the date of the receipt of the notice or other date specified in the notice; place no further orders or subcontracts for materials, services or facilities except as necessary for completion of such portion of the work not terminated; terminate all vendors and subcontracts; and settle all outstanding liabilities and claims.
- 53. The fifteen-day period will begin upon the mailing of notice by the City. If the contractor fails to cure the default within the seven (7) days specified in the notice and the contract is terminated for failure to perform satisfactorily, the contractor shall be entitled to receive compensation for all reasonable, allocable and allowable contract services satisfactorily performed by the contractor up to the date of termination that were accepted by the City prior to the termination. In the event the City terminates the contract because of the default of the contractor, the contractor shall be liable for all excess costs that the City is required to expend to complete the work under contract.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/FormW9.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)

- Form 1099-DIV (dividends, including those from stocks or mutual funds)
 - Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
 - Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
 - Form 1099-S (proceeds from real estate transactions)
 - Form 1099-K (merchant card and third party network transactions)
 - Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
 - Form 1099-C (canceled debt)
 - Form 1099-A (acquisition or abandonment of secured property)
- Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, later.

By signing the filled-out form, you:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income, and
4. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct. See *What is FATCA reporting*, later, for further information.

Note: If you are a U.S. person and a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien;
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States;
- An estate (other than a foreign estate); or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax under section 1446 on any foreign partners' share of effectively connected taxable income from such business. Further, in certain cases where a Form W-9 has not been received, the rules under section 1446 require a partnership to presume that a partner is a foreign person, and pay the section 1446 withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid section 1446 withholding on your share of partnership income.

In the cases below, the following person must give Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States.

- In the case of a disregarded entity with a U.S. owner, the U.S. owner of the disregarded entity and not the entity;
- In the case of a grantor trust with a U.S. grantor or other U.S. owner, generally, the U.S. grantor or other U.S. owner of the grantor trust and not the trust; and
- In the case of a U.S. trust (other than a grantor trust), the U.S. trust (other than a grantor trust) and not the beneficiaries of the trust.

Foreign person. If you are a foreign person or the U.S. branch of a foreign bank that has elected to be treated as a U.S. person, do not use Form W-9. Instead, use the appropriate Form W-8 or Form 8233 (see Pub. 515, *Withholding of Tax on Nonresident Aliens and Foreign Entities*).

Nonresident alien who becomes a resident alien. Generally, only a nonresident alien individual may use the terms of a tax treaty to reduce or eliminate U.S. tax on certain types of income. However, most tax treaties contain a provision known as a "saving clause." Exceptions specified in the saving clause may permit an exemption from tax to continue for certain types of income even after the payee has otherwise become a U.S. resident alien for tax purposes.

If you are a U.S. resident alien who is relying on an exception contained in the saving clause of a tax treaty to claim an exemption from U.S. tax on certain types of income, you must attach a statement to Form W-9 that specifies the following five items.

1. The treaty country. Generally, this must be the same treaty under which you claimed exemption from tax as a nonresident alien.
2. The treaty article addressing the income.
3. The article number (or location) in the tax treaty that contains the saving clause and its exceptions.
4. The type and amount of income that qualifies for the exemption from tax.
5. Sufficient facts to justify the exemption from tax under the terms of the treaty article.

Example. Article 20 of the U.S.-China income tax treaty allows an exemption from tax for scholarship income received by a Chinese student temporarily present in the United States. Under U.S. law, this student will become a resident alien for tax purposes if his or her stay in the United States exceeds 5 calendar years. However, paragraph 2 of the first Protocol to the U.S.-China treaty (dated April 30, 1984) allows the provisions of Article 20 to continue to apply even after the Chinese student becomes a resident alien of the United States. A Chinese student who qualifies for this exception (under paragraph 2 of the first protocol) and is relying on this exception to claim an exemption from tax on his or her scholarship or fellowship income would attach to Form W-9 a statement that includes the information described above to support that exemption.

If you are a nonresident alien or a foreign entity, give the requester the appropriate completed Form W-8 or Form 8233.

Backup Withholding

What is backup withholding? Persons making certain payments to you must under certain conditions withhold and pay to the IRS 24% of such payments. This is called "backup withholding." Payments that may be subject to backup withholding include interest, tax-exempt interest, dividends, broker and barter exchange transactions, rents, royalties, nonemployee pay, payments made in settlement of payment card and third party network transactions, and certain payments from fishing boat operators. Real estate transactions are not subject to backup withholding.

You will not be subject to backup withholding on payments you receive if you give the requester your correct TIN, make the proper certifications, and report all your taxable interest and dividends on your tax return.

Payments you receive will be subject to backup withholding if:

1. You do not furnish your TIN to the requester,
2. You do not certify your TIN when required (see the instructions for Part II for details),
3. The IRS tells the requester that you furnished an incorrect TIN,
4. The IRS tells you that you are subject to backup withholding because you did not report all your interest and dividends on your tax return (for reportable interest and dividends only), or
5. You do not certify to the requester that you are not subject to backup withholding under 4 above (for reportable interest and dividend accounts opened after 1983 only).

Certain payees and payments are exempt from backup withholding. See *Exempt payee code*, later, and the separate Instructions for the Requester of Form W-9 for more information.

Also see *Special rules for partnerships*, earlier.

What is FATCA Reporting?

The Foreign Account Tax Compliance Act (FATCA) requires a participating foreign financial institution to report all United States account holders that are specified United States persons. Certain payees are exempt from FATCA reporting. See *Exemption from FATCA reporting code*, later, and the Instructions for the Requester of Form W-9 for more information.

Updating Your Information

You must provide updated information to any person to whom you claimed to be an exempt payee if you are no longer an exempt payee and anticipate receiving reportable payments in the future from this person. For example, you may need to provide updated information if you are a C corporation that elects to be an S corporation, or if you no longer are tax exempt. In addition, you must furnish a new Form W-9 if the name or TIN changes for the account; for example, if the grantor of a grantor trust dies.

Penalties

Failure to furnish TIN. If you fail to furnish your correct TIN to a requester, you are subject to a penalty of \$50 for each such failure unless your failure is due to reasonable cause and not to willful neglect.

Civil penalty for false information with respect to withholding. If you make a false statement with no reasonable basis that results in no backup withholding, you are subject to a \$500 penalty.

Criminal penalty for falsifying information. Willfully falsifying certifications or affirmations may subject you to criminal penalties including fines and/or imprisonment.

Misuse of TINs. If the requester discloses or uses TINs in violation of federal law, the requester may be subject to civil and criminal penalties.

Specific Instructions

Line 1

You must enter one of the following on this line; **do not** leave this line blank. The name should match the name on your tax return.

If this Form W-9 is for a joint account (other than an account maintained by a foreign financial institution (FFI)), list first, and then circle, the name of the person or entity whose number you entered in Part I of Form W-9. If you are providing Form W-9 to an FFI to document a joint account, each holder of the account that is a U.S. person must provide a Form W-9.

a. **Individual.** Generally, enter the name shown on your tax return. If you have changed your last name without informing the Social Security Administration (SSA) of the name change, enter your first name, the last name as shown on your social security card, and your new last name.

Note: ITIN applicant: Enter your individual name as it was entered on your Form W-7 application, line 1a. This should also be the same as the name you entered on the Form 1040/1040A/1040EZ you filed with your application.

b. **Sole proprietor or single-member LLC.** Enter your individual name as shown on your 1040/1040A/1040EZ on line 1. You may enter your business, trade, or “doing business as” (DBA) name on line 2.

c. **Partnership, LLC that is not a single-member LLC, C corporation, or S corporation.** Enter the entity’s name as shown on the entity’s tax return on line 1 and any business, trade, or DBA name on line 2.

e. **Disregarded entity.** For U.S. federal tax purposes, an entity that is disregarded as an entity separate from its owner is treated as a “disregarded entity.” See Regulations section 301.7701-2(c)(2)(iii). Enter the owner’s name on line 1. The name of the entity entered on line 1 should never be a disregarded entity. The name on line 1 should be the name shown on the income tax return on which the income should be reported. For example, if a foreign LLC that is treated as a disregarded entity for U.S. federal tax purposes has a single owner that is a U.S. person, the U.S. owner’s name is required to be provided on line 1. If the direct owner of the entity is also a disregarded entity, enter the first owner that is not disregarded for federal tax purposes. Enter the disregarded entity’s name on line 2, “Business name/disregarded entity name.” If the owner of the disregarded entity is a foreign person, the owner must complete an appropriate Form W-8 instead of a Form W-9. This is the case even if the foreign person has a U.S. TIN.

Line 2

If you have a business name, trade name, DBA name, or disregarded entity name, you may enter it on line 2.

Line 3

Therefore, if you are only submitting this form for an account you hold in the United States, you may leave this field blank. Consult with the person requesting this form if you are uncertain if the financial institution is subject to these requirements. A requester may indicate that a code is not required by providing you with a Form W-9 with "Not Applicable" (or any similar indication) written or printed on the line for a FATCA exemption code.

Line 5

Enter your address (number, street, and apartment or suite number). This is where the requester of this Form W-9 will mail your information returns. If this address differs from the one the requester already has on file, write NEW at the top. If a new address is provided, there is still a chance the old address will be used until the payor changes your address in their records.

Line 6

Enter your city, state, and ZIP code.

Part I. Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. If you are a resident alien and you do not have and are not eligible to get an SSN, your TIN is your IRS individual taxpayer identification number (ITIN). Enter it in the social security number box. If you do not have an ITIN, see *How to get a TIN* below.

If you are a sole proprietor and you have an EIN, you may enter either your SSN or EIN.

If you are a single-member LLC that is disregarded as an entity separate from its owner, enter the owner's SSN (or EIN, if the owner has one). Do not enter the disregarded entity's EIN. If the LLC is classified as a corporation or partnership, enter the entity's EIN.

Note: See *What Name and Number To Give the Requester*, later, for further clarification of name and TIN combinations.

How to get a TIN. If you do not have a TIN, apply for one immediately. To apply for an SSN, get Form SS-5, Application for a Social Security Card, from your local SSA office or get this form online at www.SSA.gov. You may also get this form by calling 1-800-772-1213. Use Form W-7, Application for IRS Individual Taxpayer Identification Number, to apply for an ITIN, or Form SS-4, Application for Employer Identification Number, to apply for an EIN. You can apply for an EIN online by accessing the IRS website at www.irs.gov/Businesses and clicking on Employer Identification Number (EIN) under Starting a Business. Go to www.irs.gov/Forms to view, download, or print Form W-7 and/or Form SS-4. Or, you can go to www.irs.gov/OrderForms to place an order and have Form W-7 and/or SS-4 mailed to you within 10 business days.

If you are asked to complete Form W-9 but do not have a TIN, apply for a TIN and write "Applied For" in the space for the TIN, sign and date the form, and give it to the requester. For interest and dividend payments, and certain payments made with respect to readily tradable instruments, generally you will have 60 days to get a TIN and give it to the requester before you are subject to backup withholding on payments. The 60-day rule does not apply to other types of payments. You will be subject to backup withholding on all such payments until you provide your TIN to the requester.

Note: Entering "Applied For" means that you have already applied for a TIN or that you intend to apply for one soon.

Caution: A disregarded U.S. entity that has a foreign owner must use the appropriate Form W-8.

Part II. Certification

To establish to the withholding agent that you are a U.S. person, or resident alien, sign Form W-9. You may be requested to sign by the withholding agent even if item 1, 4, or 5 below indicates otherwise.

For a joint account, only the person whose TIN is shown in Part I should sign (when required). In the case of a disregarded entity, the person identified on line 1 must sign. Exempt payees, see *Exempt payee code*, earlier.

Signature requirements. Complete the certification as indicated in items 1 through 5 below.

1. Interest, dividend, and barter exchange accounts opened before 1984 and broker accounts considered active during 1983.

You must give your correct TIN, but you do not have to sign the certification.

2. Interest, dividend, broker, and barter exchange accounts opened after 1983 and broker accounts considered inactive during 1983.

You must sign the certification or backup withholding will apply. If you are subject to backup withholding and you are merely providing your correct TIN to the requester, you must cross out item 2 in the certification before signing the form.

3. Real estate transactions.

You must sign the certification. You may cross out item 2 of the certification.

4. Other payments.

City of Naples, FL
Citywide Lake Restoration
RFP No. 20-007
PROJECT REQUIREMENTS AND SPECIFICATIONS

A. PURPOSE

The following Request for Proposals (RFP) has been developed to solicit proposals from consulting firms qualified and experienced in engineering, water resources, landscape architecture and stormwater pond restoration and improvement. Although technical differences exist, for purposes of this solicitation the term 'stormwater pond' is synonymous with 'lake'.

B. PROJECT SCOPE/DESCRIPTION/BACKGROUND

Stormwater lakes within the City are many decades old and most have never been dredged. Over time, these lakes have deteriorated and have a buildup of accumulated pollutants which can lead to diminished pollutant removal capabilities. The City seeks to restore and potentially improvement several lakes that receive stormwater from public lands. An evaluation of the lake watershed may be helpful to identify measures for controlling potential sources of contamination prior to entering a lake. Therefore, this project not only allows for improvements that enable the lake to function better, but also allow for public interaction and neighborhood beautification. Improvements in water quality in the City's lakes enhance their amenity value for residents, while reducing pollutant loadings to impaired waters of the state.

C. EXISTING CONDITIONS

There are twenty stormwater ponds (hereinafter called lakes) that receive stormwater from the public rights of way in the City of Naples. In 2015, the City restored one of these lakes (Lake Manor #22) by designing a project that removed decades worth of accumulated sediment, muck and debris, removed exotic vegetation from the lake banks, created a littoral shelves and installed inlet debris filters and baffles, among other things. The effectiveness of the project is demonstrated by the elimination of reported algal blooms, improvements in pollutant removal efficiency (via water quality data), and habitat observations. The City desires to continue similar restoration efforts for the remaining listed lakes.

The intent of this solicitation is to hire an experienced and proven team to provide the following professional services at a number of different lakes as assigned over several budget years:

- Data collection services at lakes including topographical and bathymetric surveying, chemical testing of water, sediment and muck, easement staking;
- Design, engineer and plan a variety of restoration improvements at each lake assigned;

- Determine if higher levels of pollutant removal and flood protection are possible at each lake and if so, what modifications would be needed to achieve the higher levels;
- Permitting services (if needed);
- Construction inspection and engineering services.

For this fiscal year (FY 19-20), the City desires to enter into an Agreement for three lakes: Spring Lake #11 which is hydraulically connected to East Lake #31 and 15th Avenue North Lake #19. The number of lakes to be included within an Agreement depends upon the outcome of negotiations for scope, fee and schedule with the top ranked firm (or second or third ranked firm).

All lakes are within residential neighborhoods with constrained space for restoration operations. Water quality data ranging from 2008-present (metals, nutrients, & bacteria) exists for many of the lakes, although there are data gaps for some. Appendix A includes reports and data associated with each lake that will assist the reader in understanding the needs for a restoration project and the challenges for designing and constructing projects. For future potential supplemental agreements with the selected firm, additional information will be provided prior to negotiating a scope, fee and schedule for that particular lake or set of lakes.

D. POTENTIAL IMPROVEMENTS

Dredging/Spot Dredging: Over time lakes accumulate a thick layer of nutrient/pollutant laden sediment which can drastically reduce a lake's pollutant removal efficiency. Dredge projects will require significant planning and coordination for dewatering operations and staging. Mechanical, hydraulic and other dredge operations will be considered with or without polymers. Design engineering may require sampling and analysis of lake sediment to evaluate pollutant composition and concentration, in order to determine appropriate disposal mechanism and location. Innovative re-use options may be available for suitable dredge material removed from the stormwater pond. Proposals should discuss the firm's experience with dredging and dewatering operations. Permit modifications may be required through the South Florida Water Management District or Florida Department of Environmental Protection.

Other Water Quality Improvements: Lake bank improvements to maximize water quality benefits e.g. slope optimization, exotics removal, littoral planting. Potential improvements may include re-contouring portions of lake banks to a more gradual slope and planting littoral shelves with native emergent and shoreline vegetation to improve water quality. Educational signage that describes how the lake is cleaning stormwater and how residents and visitors can help (pick up litter, use less fertilizer, create rain gardens and swales, remove exotic vegetation, pick up after their pets, etc.) would be desired as well. Any exotics existing in the right of way or littoral zone should be treated and removed.

Other design elements could include alternative water quality features not limited to trash & debris capturing elements at stormwater inflows to lake, baffles projecting from the lake

bank into the lake which lengthen the residence time of water moving through the pond, as well as provide more opportunity for particulate settlement.

E. OTHER CONSIDERATIONS

The City is aware of new technologies and processes that are intended to improve a stormwater pond's performance and to some degree restore performance to achieve better pollutant removal efficiencies. Some of these alternatives may be experimental and without proven results or long-term studies on habitat or human health. Some may have begun studies and or a peer reviewed process. This solicitation is not intended to rule out any promising technology or process, but rather will rely on those technologies and processes with strong scientific data and professional conclusions.

F. BACKGROUND INFORMATION - 15th Avenue North Lake #19

Lake 19 is just over 3 acres in size, with 16 single family lots bordering the lake on the south, west, and east sides. Public right of way lies along the north side of the lake, where several bald cypress trees are present. It also owns two properties adjacent to and north of this lake: 1550 10th St N (Water Treatment Plant) and 1200 Fleischmann Blvd (Fleischmann Park).

Stormwater from the surrounding neighborhood drains into Lake 19, along with waste discharge from the City’s Water Treatment Plant. A control structure exists at the northeast corner of the stormwater lake that discharges via two 24” pipes to the east, along Goodlette Frank Rd, into the Conservancy of Southwest Florida’s filter marsh, and discharging into the Gordon River. This outfall structure was improved in 2012 as part of the Basin V Stormwater Management Group II Drainage Improvements as seen in Attachment A.

The shoreline is covered by approximately 2% riprap and 70% vegetation, with 50% emergent vegetation (AMEC 2012). Several homes have docks over the lake and/or ad hoc irrigation systems drawing from the lake. Some littoral plantings have been established along the northern bank; these consist primarily of pickerelweed; control for cattail growth is ongoing.

In August 2009, soft sediment depths were conducted as shown in Figure 1. Lake 19 has been identified as a potential source of bacterial loadings to the Gordon River. This lake is within a reclaimed water irrigation area (a potential nutrient source).

Figure 1: Soft Sediment Depths, August 2009. Water Depth at Maximum Soft Sediment Measurement (inches) = 123 inches; Maximum Soft Sediment Thickness Measured (inches) = 18 inches.

G. BACKGROUND INFORMATION - Spring Lake & East Lake

Stormwater Lake 11 (Spring Lake) discharges directly to the smaller stormwater Lake 31 (East Lake). Most of the stormwater flowing into Lake 31 comes from the outfall of Lake 11. Thus Lake 31's outfall quality is similar to that of Lake 11, and the City's current water monitoring program (Cardno, 2015-2018) reflects that by monitoring only the outfall of Lake 31. These data reflect the integrated performance of Lakes 11 and 31. In the past both Lakes 11 and 31 have been monitored (e.g., Amec, 2013). These lakes reduce loadings of Total Suspended Solids (TSS), Total Phosphorus (TP), Total Nitrogen (TN), copper (Cu), and fecal coliforms to Naples Bay. Nonetheless these were identified as lakes whose pollutant treatment effectiveness is less than optimal (Amec, 2013). Specifically, Lake 31 produces the highest loading of TN, TP, and fecal coliform of any of the City's stormwater lakes that discharge to Naples Bay, while both lakes discharge relatively high loadings of Cu, compared with other City stormwater lakes (Amec, 2013). The ultimate receiving water body for these lakes is Naples Bay, and Wood Environment & Infrastructure Solutions, Inc. (Wood) has evaluated pollutants in Lake 11 and Lake 31, including the effects associated with loading from Lake 11 to Lake 31.

H. PROCESS

1. The City expects significant public involvement throughout the design process. Participation is anticipated from the City Council, neighborhood, and other community stakeholders.
2. The City expects multiple reviews of plans, engineering cost estimates, vendor information, etc. This normally occurs at the 30%, 60% and 90% plan design stages.
3. The City expects the selected firm to permit the project beginning at the 60% design level.
4. The City expects assistance throughout the publicly advertised bidding process for a construction contractor.
5. The City expects the qualified firm to also be experienced and qualified in construction engineering inspection, although this scope for work may or may not be developed as a subsequent phase to this design/engineering/permitting process.

I. INSURANCE

The City's General Insurance Requirements on page 9 apply.
