How to open the fillable FWQ Document

The FWQ located on our website is a dynamic PDF form that must be "downloaded" onto your computer and completed using Adobe Reader (or Adobe Acrobat), version 9.1 or greater. The FWQ should NOT be completed within a web browser. If opened within a web browser window/tab or outside of Adobe Reader/Reader, you may see a "Please Wait..." message, but the document will never open. If this message appears, please ensure the form has been properly "downloaded" and opened within Adobe Reader/Acrobat on your computer (Windows and/or Mac).

If needed, you may download the latest free version of Adobe Reader from Adobe's website at: https://get.adobe.com/reader/
