- 36. RENEWAL:** Contract will be in-place for a three (3) year term with an optional two (2) one (1) year renewals, if mutually agreed upon by the CITY and CONTRACTOR. Pursuant to the City of Naples Code of Ordinances, Sec.2-667(7)(e), the term of this contract may be extended by the parties for no more than two years. Each renewal or extension shall be automatically extended for automatic and successive additional terms, unless either party gives written notice to

the other not fewer than ninety (90) days prior to the expiration of the then current term. It is recognized that the terms “renewal” and “extension” once had a distinct meaning in the law; however, the intent of this section is that no contract whether continued by a renewal, extension, or a combination of the two, will result in a term of more than three years plus two years, for a total of five years maximum without City Council approval.

37. ABNORMAL QUANTITIES: While it is not anticipated, should any unusual or abnormal requirements arise, the City reserves the right to solicit separate proposals thereon.

41. PROPOSER INVESTIGATIONS: Before submitting a proposal, each proposer shall make all investigations and examinations necessary to ascertain all site conditions and requirements affecting the full performance of the contract and to verify any representations made by the City of Naples upon which the proposer will rely. If the proposer receives an award as a result of its proposal submission, failure to have made such investigations and examinations will in no way relieve the proposer from its obligation to comply in every detail with all provisions and requirements of the contract documents, nor will a plea of ignorance of such conditions and requirements be accepted as a basis for any claim whatsoever by the contractor for additional compensation.

42. CERTIFICATES AND LICENSES: The Contractor, at time of proposal, shall possess the correct occupational licenses, all professional licenses or other authorizations necessary to carry out and perform the work required by the City of Naples and Collier County for this project pursuant to all applicable Federal,

If the contractor believes that any particular work is not within the scope of the project, is a material change, or will otherwise require more compensation to the contractor, the contractor must immediately notify the City in writing of this belief. The City of Naples will not pay more than a total of 10% on markup and overhead. Any supplemental agreement shall be approved by the City Manager, contractor and the architect/engineer, if applicable, prior to the commencement of the modified work. The City Manager may only approve contract change orders not exceeding 25 percent of the original contract that were originally approved by City Council. Contracts originally approved at \$50,000.00 or less will be limited to an amount that does not exceed \$75,000.00 for a change order or modification. (City Code Sec.2-667.(7)(a)(b).

The City reserves the right to make, at any time prior to or during the progress of the work, increases or decreases in the quantities of work as may be found necessary or desirable by the City. Compensation for changes in quantities shall be at the bid unit price for the specific item of work with no additional charges allowed for the change in quantity.

All unit prices for items of work in the original contract shall be considered all-inclusive of expenses necessary to accomplish the work regardless of the unit of measure (e.g. LS, LF, CY, SY, TN, etc.) including but not limited to:

Each proposal for change order shall list both the reduction in quantity of deleted work and increased quantity of added work. The City of Naples will not pay more than a total of 10% on markup and overhead when establishing a negotiated fee for items not listed by unit price.

45. AWARDED CONTRACT: An awarded contract with hourly rates will determine any overtime that is authorized by the City and its Project Manager. 49. EXCEPTIONS: Proposers taking exception to any part or section of the solicitation shall indicate such exceptions on the proposal form. Failure to indicate any exception will be interpreted as the proposer's intent to comply fully with the requirements as written. Conditional or qualified proposals, unless specifically allowed, shall be subject to rejection in whole or in part.

50. FAILURE TO DELIVER: In the event of the contractor to fail to deliver services in accordance with the contract terms and conditions, the City, after due oral or written notice, may procure the services from other sources and hold the contractor responsible for any resulting purchase and administrative costs. This remedy shall be in addition to any other remedies that the City may have.

51. FAILURE TO ENFORCE: Failure by the City at any time to enforce the provisions of the contract shall not be construed as a waiver of any such provisions. 64. FLORIDA PUBLIC RECORDS LAW: In accordance with Chapter 119, Florida Statutes, and, except as may be provided by other applicable State and Federal laws, all Proposers should be aware that sealed bids, proposals, or replies received by the City pursuant to a competitive solicitation thereto are in the public domain and are available for public inspection, review and copying. The Proposers are requested, however, to identify specifically any information contained in their bids/proposals which they consider confidential and/or proprietary, inclusive of trade secrets as defined in s. 812.081, Florida Statutes, and which they believe to be exempt from disclosure, citing specifically the applicable exempting law. All proposals received in response to any invitation to bid, request for proposals, or request for qualifications, will become the property of the City of Naples and will not be returned. In the event of an award, all documentation produced as part of the contract will become the exclusive property of the City. All materials that qualify for exemption from Chapter 119, Florida Statutes or other applicable law must be submitted in a separate envelope, clearly identified as "EXEMPT FROM PUBLIC DISCLOSURE" with your firm's name and the proposal number marked on the outside. The City will not accept bids/proposals when the entire proposal is labeled as exempt from public disclosure.

If the contractor, vendor, firm, or proposer considers any portion of any documents, data, or records submitted to the City to be a confidential, proprietary, trade secret or otherwise not subject to disclosure pursuant to Chapter 119, Florida Statutes, the Florida Constitution or other authority, the contractor, vendor, firm, or proposer must simultaneously provide the City Department with a separate redacted copy of the information it claims as Confidential and briefly describe in writing the grounds for claiming exemption from the public records law, including the specific statutory citation for such exemption. This redacted copy shall contain the Contract name and number and shall be clearly titled "Confidential." The redacted copy should only redact those portions of material that the Contractor claims is confidential, proprietary, trade secret or otherwise not subject to disclosure. If contractor, vendor, firm, or proposer fails to submit a redacted copy of documents, data, or other records it claims is confidential, the City is authorized to produce all documents, data, and other records submitted to the City in answer to a public records request for these records.

Be aware that the designation of an item as exempt from public disclosure by a Proposer may be challenged in court by any person or entity. By designation of material in your proposal as exempt from public disclosure, Proposer agrees to defend the City of Naples (and its employees, agents and elected and appointed officials) against all claims and actions (whether or not a lawsuit is commenced) related to Proposer's designation of material as exempt from public disclosure and to hold harmless the City of Naples (and its employees, agents and elected and appointed officials) for any award to a plaintiff for damages, costs and attorneys' fees, and for costs and attorneys' fees incurred by the City by reason of any claim or action related to you designation of material as exempt from public disclosure.

Note: Proposer's References and Proposal Cost or Price will be deemed a public record, and if a claim of confidentiality is made, the City may deem the

proposal non-responsive.

In accordance with Chapter 119.071(1)(b)2. of the Florida Statutes, sealed bids, proposals, or replies received by an agency pursuant to a competitive solicitation are exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution until such time as the agency provides notice of an intended decision or until 30 days after opening the bids, proposals, or final replies, whichever is earlier.

In accordance with Chapter 119.071(1)(c)3. of the Florida Statutes, if an agency rejects all bids, proposals, or replies submitted in response to a competitive solicitation and the agency concurrently provides notice of its intent to reissue the competitive solicitation, the rejected bids, proposals, or replies remain exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution until such time as the agency provides notice of an intended decision concerning the reissued competitive solicitation or until the agency withdraws the reissued competitive solicitation. A bid, proposal, or reply is not exempt for longer than 12 months after the initial agency notice rejecting all bids, proposals, or replies.

In accordance with Chapter 286.0113(2)(c)3. of the Florida Statutes, if the agency rejects all bids, proposals, or replies and concurrently provides notice of its intent to reissue a competitive solicitation, the recording and any records presented at the exempt meeting remain exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution until such time as the agency provides notice of an intended decision concerning the reissued competitive solicitation or until the agency withdraws the reissued competitive solicitation. A recording and any records presented at an exempt meeting are not exempt for longer than 12 months after the initial agency notice rejecting all bids, proposals, or replies.

Submitting Vendor Name: _____

Authorized Bidder's Signature: _____

At the discretion of the Purchasing Manager, bids or proposals with minor irregularities may be accepted and allowed to be corrected when in the best interest of the City.

By signing the filled-out form, you:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income, and
4. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct. See *What is FATCA reporting*, later, for further information.

Note: If you are a U.S. person and a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien;
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States;
- An estate (other than a foreign estate); or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax under section 1446 on any foreign partners' share of effectively connected taxable income from such business. Further, in certain cases where a Form W-9 has not been received, the rules under section 1446 require a partnership to presume that a partner is a foreign person, and pay the section 1446 withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid section 1446 withholding on your share of partnership income.

In the cases below, the following person must give Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States.

- In the case of a disregarded entity with a U.S. owner, the U.S. owner of the disregarded entity and not the entity;
- In the case of a grantor trust with a U.S. grantor or other U.S. owner, generally, the U.S. grantor or other U.S. owner of the grantor trust and not the trust; and
- In the case of a U.S. trust (other than a grantor trust), the U.S. trust (other than a grantor trust) and not the beneficiaries of the trust.

Foreign person. If you are a foreign person or the U.S. branch of a foreign bank that has elected to be treated as a U.S. person, do not use Form W-9. Instead, use the appropriate Form W-8 or Form 8233 (see Pub. 515, *Withholding of Tax on Nonresident Aliens and Foreign Entities*).

Nonresident alien who becomes a resident alien. Generally, only a nonresident alien individual may use the terms of a tax treaty to reduce or eliminate U.S. tax on certain types of income. However, most tax treaties contain a provision known as a "saving clause." Exceptions specified in the saving clause may permit an exemption from tax to continue for certain types of income even after the payee has otherwise become a U.S. resident alien for tax purposes.

If you are a U.S. resident alien who is relying on an exception contained in the saving clause of a tax treaty to claim an exemption from U.S. tax on certain types of income, you must attach a statement to Form W-9 that specifies the following five items.

1. The treaty country. Generally, this must be the same treaty under which you claimed exemption from tax as a nonresident alien.
2. The treaty article addressing the income.
3. The article number (or location) in the tax treaty that contains the saving clause and its exceptions.
4. The type and amount of income that qualifies for the exemption from tax.
5. Sufficient facts to justify the exemption from tax under the terms of the treaty article.

Example. Article 20 of the U.S.-China income tax treaty allows an exemption from tax for scholarship income received by a Chinese student temporarily present in the United States. Under U.S. law, this student will become a resident alien for tax purposes if his or her stay in the United States exceeds 5 calendar years. However, paragraph 2 of the first Protocol to the U.S.-China treaty (dated April 30, 1984) allows the provisions of Article 20 to continue to apply even after the Chinese student becomes a resident alien of the United States. A Chinese student who qualifies for this exception (under paragraph 2 of the first protocol) and is relying on this exception to claim an exemption from tax on his or her scholarship or fellowship income would attach to Form W-9 a statement that includes the information described above to support that exemption.

If you are a nonresident alien or a foreign entity, give the requester the appropriate completed Form W-8 or Form 8233.

Backup Withholding

What is backup withholding? Persons making certain payments to you must under certain conditions withhold and pay to the IRS 24% of such payments. This is called "backup withholding." Payments that may be subject to backup withholding include interest, tax-exempt interest, dividends, broker and barter exchange transactions, rents, royalties, nonemployee pay, payments made in settlement of payment card and third party network transactions, and certain payments from fishing boat operators. Real estate transactions are not subject to backup withholding.

You will not be subject to backup withholding on payments you receive if you give the requester your correct TIN, make the proper certifications, and report all your taxable interest and dividends on your tax return.

Payments you receive will be subject to backup withholding if:

1. You do not furnish your TIN to the requester,
2. You do not certify your TIN when required (see the instructions for Part II for details),
3. The IRS tells the requester that you furnished an incorrect TIN,
4. The IRS tells you that you are subject to backup withholding because you did not report all your interest and dividends on your tax return (for reportable interest and dividends only), or
5. You do not certify to the requester that you are not subject to backup withholding under 4 above (for reportable interest and dividend accounts opened after 1983 only).

Certain payees and payments are exempt from backup withholding. See *Exempt payee code*, later, and the separate Instructions for the Requester of Form W-9 for more information.

Also see *Special rules for partnerships*, earlier.

What is FATCA Reporting?

The Foreign Account Tax Compliance Act (FATCA) requires a participating foreign financial institution to report all United States account holders that are specified United States persons. Certain payees are exempt from FATCA reporting. See *Exemption from FATCA reporting code*, later, and the Instructions for the Requester of Form W-9 for more information.

Updating Your Information

You must provide updated information to any person to whom you claimed to be an exempt payee if you are no longer an exempt payee and anticipate receiving reportable payments in the future from this person. For example, you may need to provide updated information if you are a C corporation that elects to be an S corporation, or if you no longer are tax exempt. In addition, you must furnish a new Form W-9 if the name or TIN changes for the account; for example, if the grantor of a grantor trust dies.

Penalties

Failure to furnish TIN. If you fail to furnish your correct TIN to a requester, you are subject to a penalty of \$50 for each such failure unless your failure is due to reasonable cause and not to willful neglect.

Civil penalty for false information with respect to withholding. If you make a false statement with no reasonable basis that results in no backup withholding, you are subject to a \$500 penalty.

Criminal penalty for falsifying information. Willfully falsifying certifications or affirmations may subject you to criminal penalties including fines and/or imprisonment.

Misuse of TINs. If the requester discloses or uses TINs in violation of federal law, the requester may be subject to civil and criminal penalties.

Specific Instructions

Line 5

Enter your address (number, street, and apartment or suite number). This is where the requester of this Form W-9 will mail your information returns. If this address differs from the one the requester already has on file, write NEW at the top. If a new address is provided, there is still a chance the old address will be used until the payor changes your address in their records.

Line 6

Enter your city, state, and ZIP code.

Part I. Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. If you are a resident alien and you do not have and are not eligible to get an SSN, your TIN is your IRS individual taxpayer identification number (ITIN). Enter it in the social security number box. If you do not have an ITIN, see *How to get a TIN* below.

If you are a sole proprietor and you have an EIN, you may enter either your SSN or EIN.

If you are a single-member LLC that is disregarded as an entity separate from its owner, enter the owner's SSN (or EIN, if the owner has one). Do not enter the disregarded entity's EIN. If the LLC is classified as a corporation or partnership, enter the entity's EIN.

Note: See *What Name and Number To Give the Requester*, later, for further clarification of name and TIN combinations.

How to get a TIN. If you do not have a TIN, apply for one immediately. To apply for an SSN, get Form SS-5, Application for a Social Security Card, from your local SSA office or get this form online at www.SSA.gov. You may also get this form by calling 1-800-772-1213. Use Form W-7, Application for IRS Individual Taxpayer Identification Number, to apply for an ITIN, or Form SS-4, Application for Employer Identification Number, to apply for an EIN. You can apply for an EIN online by accessing the IRS website at www.irs.gov/Businesses and clicking on Employer Identification Number (EIN) under Starting a Business. Go to www.irs.gov/Forms to view, download, or print Form W-7 and/or Form SS-4. Or, you can go to www.irs.gov/OrderForms to place an order and have Form W-7 and/or SS-4 mailed to you within 10 business days.

If you are asked to complete Form W-9 but do not have a TIN, apply for a TIN and write "Applied For" in the space for the TIN, sign and date the form, and give it to the requester. For interest and dividend payments, and certain payments made with respect to readily tradable instruments, generally you will have 60 days to get a TIN and give it to the requester before you are subject to backup withholding on payments. The 60-day rule does not apply to other types of payments. You will be subject to backup withholding on all such payments until you provide your TIN to the requester.

Note: Entering "Applied For" means that you have already applied for a TIN or that you intend to apply for one soon.

Caution: A disregarded U.S. entity that has a foreign owner must use the appropriate Form W-8.

Part II. Certification

To establish to the withholding agent that you are a U.S. person, or resident alien, sign Form W-9. You may be requested to sign by the withholding agent even if item 1, 4, or 5 below indicates otherwise.

For a joint account, only the person whose TIN is shown in Part I should sign (when required). In the case of a disregarded entity, the person identified on line 1 must sign. Exempt payees, see *Exempt payee code*, earlier.

Signature requirements. Complete the certification as indicated in items 1 through 5 below.

1. Interest, dividend, and barter exchange accounts opened before 1984 and broker accounts considered active during 1983.

You must give your correct TIN, but you do not have to sign the certification.

2. Interest, dividend, broker, and barter exchange accounts opened after 1983 and broker accounts considered inactive during 1983.

You must sign the certification or backup withholding will apply. If you are subject to backup withholding and you are merely providing your correct TIN to the requester, you must cross out item 2 in the certification before signing the form.

3. Real estate transactions. You must sign the certification. You may cross out item 2 of the certification.

4. Other payments. You must give your correct TIN, but you do not have to sign the certification unless you have been notified that you have previously given an incorrect TIN. "Other payments" include payments made in the course of the requester's trade or business for rents, royalties, goods (other than bills for merchandise), medical and health care services (including payments to corporations), payments to a nonemployee for services, payments made in settlement of payment card and third party network transactions, payments to certain fishing boat crew members and fishermen, and gross proceeds paid to attorneys (including payments to corporations).

5. Mortgage interest paid by you, acquisition or abandonment of secured property, cancellation of debt, qualified tuition program payments (under section 529), ABLE accounts (under section 529A), IRA, Coverdell ESA, Archer MSA or HSA contributions or distributions, and pension distributions. You must give your correct TIN, but you do not have to sign the certification.

Secure Your Tax Records From Identity Theft

Identity theft occurs when someone uses your personal information such as your name, SSN, or other identifying information, without your permission, to commit fraud or other crimes. An identity thief may use your SSN to get a job or may file a tax return using your SSN to receive a refund.

To reduce your risk:

- Protect your SSN,
- Ensure your employer is protecting your SSN, and
- Be careful when choosing a tax preparer.

If your tax records are affected by identity theft and you receive a notice from the IRS, respond right away to the name and phone number printed on the IRS notice or letter.

If your tax records are not currently affected by identity theft but you think you are at risk due to a lost or stolen purse or wallet, questionable credit card activity or credit report, contact the IRS Identity Theft Hotline at 1-800-908-4490 or submit Form 14039.

For more information, see Pub. 5027, Identity Theft Information for Taxpayers.

Victims of identity theft who are experiencing economic harm or a systemic problem, or are seeking help in resolving tax problems that have not been resolved through normal channels, may be eligible for Taxpayer Advocate Service (TAS) assistance. You can reach TAS by calling the TAS toll-free case intake line at 1-877-777-4778 or TTY/TDD 1-800-829-4059.

Protect yourself from suspicious emails or phishing schemes.

Phishing is the creation and use of email and websites designed to mimic legitimate business emails and websites. The most common act is sending an email to a user falsely claiming to be an established legitimate enterprise in an attempt to scam the user into surrendering private information that will be used for identity theft.

The IRS does not initiate contacts with taxpayers via emails. Also, the IRS does not request personal detailed information through email or ask taxpayers for the PIN numbers, passwords, or similar secret access information for their credit card, bank, or other financial accounts.

If you receive an unsolicited email claiming to be from the IRS, forward this message to phishing@irs.gov. You may also report misuse of the IRS name, logo, or other IRS property to the Treasury Inspector General for Tax Administration (TIGTA) at 1-800-366-4484. You can forward suspicious emails to the Federal Trade Commission at spam@uce.gov or report them at www.ftc.gov/complaint. You can contact the FTC at www.ftc.gov/idtheft or 877-IDTHEFT (877-438-4338). If you have been the victim of identity theft, see www.IdentityTheft.gov and Pub. 5027.

Visit www.irs.gov/IdentityTheft to learn more about identity theft and how to reduce your risk.

 - c. Verification of specified grades are to be determined at the time of delivery (even for plants/trees inspected, accepted, and tagged by the contractor with the City at respective nurseries). Grades determined at the time of delivery inspection or during the course of conducting a regrading inspection shall be based on the growth characteristics and condition of the plant/tree at the time of grading. The grade shall not be based on any future or predicted growth potential of the plant/tree. Each plant/tree shall be maintained by the Contractor to Florida Grade No. 1 standards until the date a written Final Acceptance by the City for that plant/tree. The City is the final authority to determine if a plant/tree does or does not meet Florida Grade No. 1 standards, including health and vigor of the plant/tree.
6. The City shall have the right at any stage of the operation to reject any and all work and materials, which, in the City's opinion, do not meet the requirements of these specifications or aesthetically do not comply with the

design intent. Plants/trees that are scarred or damaged during delivery or off-loading will be rejected.

7. Plant/tree materials, as proposed by the Contractor, are required to be inspected, accepted and tagged at the respective nurseries by the Contractor with the City prior to any delivery to the project site, unless waived by the City in writing. If such waiver is granted, the City will inspect and approve representative plant/tree material samples at the project site or at the respective nurseries prior to delivery to the project site. Waivers will only apply to the specific projects (work orders) and species designated by the City. Certificates of nursery origin may be required for plant/tree materials not tagged by the Contractor with the City.

D. CERTIFICATE OF INSPECTION

1. All shipments of plant/tree material shall originate from state registration nurseries which have undergone regular inspections by the authorized State Agencies prior to delivery to the proper site.
2. State inspection certificates certifying respective plant nurseries of origin shall accompany the bill of lading or invoices. Any certificates of inspection required by the state for specific species also will be provided. Any required transportation documents are to be submitted with invoices as back-up.
3. Contractor shall furnish the City with copies of manufacturer's literature, labels, samples, certifications, Material Safety Data Sheets, and laboratory analytical data for fertilizers, mulch, planting soil, backfill mix, chemicals, staking/guying materials and other products as appropriate, prior to use or application on any project.

E. MEASUREMENTS

1. The minimum acceptable size of all plants/trees measured after pruning with branches in normal positions, shall conform to the measurements as shown on landscape plans and conform to the Florida Grade and Standards. Deviations from these measurements must be approved in writing by the city.
2. The caliper (diameter) of tree trunks is measured six (6") inches above the ground level for trees with caliper up to and including four (4") inches, and twelve (12") inches above the ground for larger trees.
3. The caliper (diameter) of palm tree trunks is to be taken at the widest portion of the trunk measured between 1' and 3' above the soil line.

F. PLANT MATERIAL

1. The words "Plant Materials" or "Plants" or "Trees" refer to and include trees and palms. "Plant Materials" shall also refer to accent plants, ground covers and woody ornamentals. When the words "palms" or "palm trees" are utilized, no reference to other tree types is intended. When the words "trees (excluding palms)" are utilized, no other reference to palm trees is intended.
2. Plant species shall conform to those species and cultivars indicated on the plans and in the specifications.
3. Plants shall be sound, healthy, vigorous, free from plant diseases, insect pests or their eggs and shall have healthy normal growth and root systems. Tree trunks shall have the specified caliper, straight with no fresh cuts, fissures, scrapes, or scars, and shall have the specified clear trunk height, overall height, spread, and rootball size, as applicable. Container grown plants material shall be "Florida Fancy" as described in Florida Grades and Standards, Shrubs, Groundcovers, and Vines.
4. The species and varieties furnished by the Contractor shall include those listed below and/or substitutions mutually agreed upon by the Contractor and the City. The basis to be used for comparison of plants to be substituted in the respective categories shall be plant descriptions and wholesale prices as described in Betrock Information Systems' PlantFinder.
5. Trees/Palms are required to be field grown:
 - a. Field Grown: Shall have the appropriate root ball size based on the tree's trunk diameter (caliper) and/or height as established by the Florida Grades and Standards. Root ball depth on balled and burlapped (B&B) stock shall be at least 2/3 of the rootball diameter shown. Field grown trees should be properly root-pruned and hardened-off in the nursery for a period of 45-90 days, and will be inspected by the City for new root growth.
 - 1) Field grown balled and burlapped (B&B) trees are usually specified on the unit bid price plant list, however upon City approval, well established non-root bound container plants may be substituted for B&B material, when all other requirements, specifications, and unit bid prices of B&B trees are adhered to.

- 2) Natural fabric burlap is to be utilized. Synthetic woven plastic fabrics and wire baskets are prohibited unless the City provides written approval.

7. All plants for this project are to be secured from state registered nurseries within the south Florida area (as defined by Betrock Information Systems' PlantFinder geographic regions) unless authorized in writing by the City.

G. WATER

Contractor shall provide water, labor, and equipment (including a self-canceling nozzle with a diffuser) necessary to distribute water as required for all installed materials using hand-watering methods. Existing or proposed irrigation systems may not be relied on to provide water for newly planted materials. Use water free of elements toxic to plant and/or animal life.

H. GUYING AND STAKING MATERIAL

Trees shall be triple staked with three (3) two-inch diameter cypress or approved equal poles. Alternate staking/guying methods as depicted in the plans and details may also be used and would take precedence. Trees shall be tied with tree tie webbing that is $\frac{3}{4}$ -inch wide polypropylene approximately 900# break strength. Ties shall be placed at no less than $\frac{1}{2}$ of the height of the plant material. Bracing shall be removed upon request from the City.

I. GENERAL

1. The Contractor's work shall conform to accepted horticultural practices as used in the trade, unless specifically directed to the contrary by the contract documents or otherwise by the City.
2. Plants/trees shall be protected upon arrival at the site by being thoroughly watered and properly maintained until planted. If balled and burlapped (B&B) plant/tree is not planted within 12-hours of delivery then the rootball shall be kept covered with a moist material to prevent drying of root growth tips until planting. Plants/trees shall not remain unplanted on-site for a period exceeding 24-hours.

3. The Contractor shall install and maintain all plants (through final acceptance) in accordance with the requirements of the project plans, bid documents/specifications, and applicable standards.

J. LAYOUT OF PLANTING HOLES

1. The approximate location of some existing above-ground and underground utilities, structures, and other improvements are shown on the landscape plans for general information purposes only, and are not to be relied upon nor regarded as relieving the Contractor of responsibility for verifying exact field locations. All such improvements shall be investigated and verified in the exact field before starting work.
2. Should the Contractor encounter overhead or underground obstructions, median modifications, or other conditions which interfere with the specified locations for plantings, then the Contractor shall immediately notify the City and alternate planting locations or plan modifications will be selected and approved by the City. Trees which cannot be adjusted to accommodate such conditions and still adhere to clear site spacing and clear zone requirements, will be eliminated.
3. Before digging the planting holes, the location and arrangement of the planting shall be marked by the Contractor. The Contractor shall notify the City a minimum of 48-hours in advance (excluding weekends and/or holidays). The City shall reserve the right to approve or reject all marked tree locations which shall conform to the requirements of the specifications, plans, and details unless otherwise addressed above.

K. TREE AND PALM INSTALLATION

1. All planting holes shall be excavated to size and depth specified herein and in accordance with the plans and details, and backfilled with the prepared Planting Soil Backfill Mix as specified. The general planting procedures for all trees and palms are similar except as noted below.
 - a. Balled and Burlapped Trees and Palms: Always move B&B plants (except heavy trunked palms) by the rootball only. Never use the trunk as a handle to pick up or move these trees. Care should be taken not to disturb the rootball, as this would severely damage the root system. Removal of all the burlap before planting is not necessary (if it is biodegradable fabric), although the top one-third (1/3) of the burlap shall be pulled back and cut off.

- b. Palms: Generally, procedures for planting balled and burlapped trees are suitable for palms. Palms shall be harvested with a rootball appropriate for the size and species of palm per the current Florida Grades and Standards. The foliage of all palm species except Sabal palmetto shall have the leaves tied with a biodegradable twine or burlap in a bundle around the bud. Fronds shall be untied by the time of the first quarterly inspection. Unless the Contractor deems this to be detrimental to the palm. Complete leaf removal at the time of digging is required when planting Sabal palmetto, however, protection is required for heart frond and bud.
2. Circular planting holes with vertical sides shall be excavated for all trees. The diameter of planting holes for all trees shall be a minimum of 1.5 times larger than the rootball, per planting details, unless prevented by site obstructions or otherwise authorized in writing by the City. The depth of each planting hole shall be not less than 6" deeper than the height of the root ball or container as applicable and as per planting details.
3. Trees shall be set in planting holes on specified prepared planting soil mix backfilled and brought to a height to permit the top of the rootball to be 2" above the surrounding finish grade at the completion of tree installation. This allows for some settling such that the final planting will be at the same depth the plants grew in the nursery. All trees shall be planted in a vertical position (plumb). All trees shall be handled by a padded nylon strap around the rootball for lifting purposes. Heavy-trunked palms may be lifted by the trunk provided the lifting strap is padded.
4. After placing the tree in the hole, the planting soil specified herein shall be slowly watered into plant in layers and then firmly tamped to eliminate voids and air pockets and to ensure the backfill mixture is surrounding the rootball. Do not overly compact the soil to the point that it would be detrimental to the tree's health. All tamping shall be such that no trees will settle below their original growing height and the surrounding finish grade. Do not mound any soil over the roots.
5. For water retention, a minimum 6" high circular earthen berm (water ring) shall be formed around each tree such that the inside edge is located at the perimeter of the planting hole.
6. All trees shall be thoroughly watered at the time of planting and kept adequately watered to ensure healthy Florida Grade No. 1 trees until time of final acceptance. No allowances will be made for tree or palm losses due to lack of adequate or proper watering. Following initial acceptance the watering requirements shall be complied with.

7. Pruning shall be done on-site after planting (with due regard to the natural form and growth characteristics of each specie) to remove damaged limbs, to remove branches falling within the required clear site window, or as directed to improve overall plant appearance. Do not remove more than 15% of branches unless otherwise approved by the City in writing. Pruning methods shall follow standard horticultural practices using appropriate tools. Lopping, shearing, or topping of plant material will be grounds for rejection. Damaged, scarred, frayed, split, or skinned branches, limbs, or roots shall be pruned back to live wood, unless such damage, once so corrected, causes the tree to not meet Florida Grade No. 1 standard, thus requiring tree replacement at no additional expense to the City. The central leader or bud shall be left intact unless severely damaged, in which case the tree will be replaced at no additional expense to the City. Remove any tree leader dowels and fasteners at the time of planting.
8. During the course of planting, excess and waste materials shall be removed by the end of each day's operations. When planting in an area has been completed, all debris from planting operations shall be removed and the area maintained in this finished state until final acceptance.

L. GUYING AND STAKING

1. Guy and stake plant materials as specified and detailed in the plans to assure upright form, or in accordance with the following:
 - a. All trees with calipers smaller than 2-1/2" shall be staked with three (3) vertical stakes 120° apart. All trees with calipers between 2-1/2" and 4-1/2" inclusive shall use four (4) vertical stakes 90° apart. All stakes shall be 2"x4" (with length sized relative to tree height such that stakes reach the height of major branching), set vertically at least two (2) feet into the ground, and at least 12" deep into undisturbed soil, and also set against the planting hole wall. The tree shall be centered within the stakes and held firmly in place by Wellington Tape (or accepted equal), and tied to the stake and the tree to prevent slippage. Tighten guying tape as necessary to ensure tree is secured in upright position.
 - b. Heavy-trunked palm trees and trees with calipers over 4-1/2" shall be braced with a minimum of four (4) 2"x4" wood braces (with length sized relative to tree height), toe-nailed to 2"x4"x18" minimum battens which are tightly secured at two points to the tree (with 1" steel banding), at a point at least 1/3 the clear trunk height. Provide one (1) batten per brace minimum with additional battens as needed to

prevent banding from touching trunk. The braces shall be set at an angle between 45° and 60° to the ground. The trunk shall be padded with five (5) layers of burlap under the battens (except Washington palms). Braces shall be approximately 90° apart and secured underground by 2"x4"x24" minimum anchor stake pads hammered such that the deepest point is at least ten (10) inches below finish grade. Anchor stake pads shall not be exposed more than 2" above finished grade and be located no farther from the trunk than 6" from the outside toe of the earth berm around the saucer. The tree shall be centered within the braces.

2. All trees and palms shall be staked/braced on the same day as installed, and at no time shall any newly planted tree or palm remain without stakes for more than 24-hours after installation. The City may prohibit completion of any further work until all plant material has been appropriately staked.

M. MAINTENANCE PRIOR TO INITIAL ACCEPTANCE (AT INSTALLATION)

The Contractor's maintenance shall commence after each plant is planted and shall continue until Initial Acceptance (at installation). All maintenance operations shall be conducted consistent with specifications, which include the guarantee and replacement requirements.

The Contractor shall maintain Florida Grade No. 1 quality until final acceptance. This plant maintenance shall include watering, pruning, weeding, cultivating, mulching, fertilizing, repairing or replacing stakes and guys, replacement of sick or dead plants, resetting plants to proper grades or upright position, restoration of the circular earth berm around the saucer, protection from insects and diseases, and all other care required for proper growth and health of the plant. Proper protection of grassed areas shall be provided and any damage resulting from planting or maintenance operations shall be repaired promptly. If determined to be necessary by the City, disturbed areas shall be re-sodded to match existing turf at no additional cost to the City.

N. INSTALLATION OF ACCENT PLANTS, GROUND COVERS AND WOODY ORNAMENTALS

1. Elimination of Existing Vegetative Cover: shall conform to the specifications.
2. Site Preparation of Planting Beds: The site is to be prepared for planting by the removal of debris such as sticks, rocks, roots and liter. The area to be planted shall be excavated to a depth of 18" and backfilled to a level of final grade with a soil mix comprised of 50% sand and 50% screened organic

material such as screened muck or compost, guaranteed as weed free. All excavated material is to be removed from the planting site.

3. Installation of Plant Materials: Plant Materials shall be removed from containers prior to planting. Any rootballs containing regions of compacted or encircling roots shall be loosened by marking vertical cuts in the root mass. Plant Materials shall be placed in holes that are slightly larger than the diameter of the rootball with the top of the rootball to be at or slightly above finished grade. "Terrasorb AG", or accepted equal, is to be added to the planting hole at a rate of ¼ oz. (1 tsp.) per gallon of rootball being installed, prior to backfilling. The backfilling shall be made with specified soil mixture and shall be firmly compacted and water-in, so no air pockets remain.
4. Pre-emergent Herbicide Application and Mulching: The planted bed shall receive a pre-emergent granular herbicide application using "Ronstar G", or accepted equal, applied using methods and rates as specified on the manufacturer's label prior to the application of mulch. Mulch products used in bed planting shall conform to the specifications.

M. IRRIGATION SYSTEM

Description: The work specified includes furnishing and installing of the irrigation system and appurtenances necessary and applicable to complete work shown or specified.

Irrigation Piping: All pipe main line irrigation piping, lateral irrigation piping and pipe sleeves shall be made of 2,000 psi hydrostatic design stress compounds designated PVC 1120 and conform to the requirements of ASTM D1785. Threaded pipe and fittings

shall be Schedule 80. Threaded fittings shall conform to ASTM D2464. Unthreaded pipe and fittings shall be Schedule 40 with solvent-cemented joints. Cemented joints and fittings shall comply with ASTM 2466 and ASTM 2855. All PVC pipe furnished for reclaimed water use shall be colored Pantone Purple 522C, with light stable color pigments. Branch line from irrigation piping to sprinkler irrigation heads shall be polyethylene piping and fittings colored for reclaimed water service. Polyethylene piping and fittings shall be 150 psi rated.

Installation.

Excavation: Excavation shall conform to the requirements specified in Section 125 of the *Standard Specifications for Road and Bridge Construction* (current edition) or as amended.

Alignment and Grade: The pipelines shall be laid and maintained to the lines and grades established by the Drawings and this Technical Special Provision with fittings and valves at the shown locations, unless otherwise approved by Project Manager.

Hydrostatic Testing: Pressure shall be tested hydrostatically after completion of laying and before backfilling. Pressure piping and valves shall be statically tested at 150 psi. The test pressure shall be maintained for a period of two hours and be measured at the high point in the line. All air shall be expelled from the line before

applying the test pressure. Exposed pipe joints and other potential leak sources shall be carefully examined for leaks.

Leakage Testing: Main line irrigation piping shall be subjected to a leakage test. This test measures the amount of water required to be supplied to newly laid pipe to maintain a specific pressure after the pipe has been filled with water and the air expelled. The duration of this test shall be not less than 2 hours and the test pressure shall be 150 psi, as measured at the high point in the line. The maximum allowable leakage shall not exceed the limits specified in AWWA C-605.

Trench Construction: The trench shall be excavated to the required alignment, depth, and width. Trench preparation shall proceed in advance of pipe installation for only as far as the piping can be installed daily. The width of the trench at the top of the pipe shall be ample to permit the pipe to be laid and joined properly and allow the backfill to be placed as specified.

Material within the haunching area shall be compacted to 90% density according to AASHTO T-99. Excessive compaction shall be avoided if any distortion of the pipe wall is observed. Material above the haunching area may be native material if free of particles larger than one- and one-half inches. At least six inches of backfill material shall be placed over the top of the pipe before compacting directly over the crown of the pipe.

When the sub grade is found to be unstable or to include ashes, cinders, refuse, organic material, or other unsuitable material, such material shall be removed, to a minimum of at least four inches or to the depth ordered by the Project Manager and replaced under the directions of the Project Manager with clean, stable backfill material. The bedding shall be consolidated and leveled in order that the pipe may be installed as specified.

Pipe Installation: Proper implements, tools, and facilities shall be provided for the safe and convenient performance of the work. All pipe, fittings and valves shall be lowered carefully into the trench by means of suitable tools or equipment in such a manner as to prevent damage to pipeline materials. Under no circumstances shall pipeline materials be dropped or dumped into the trench.

Foreign material shall be prevented from entering the pipe while it is being placed in the trench. During laying operation, no debris, tools, clothing or other materials shall be placed in the pipe. As each length of pipe is placed in the trench the joint shall be assembled and the pipe brought to correct line and grade. The pipe shall be secured in place with approved backfill material.

At times when pipe installation is not in progress, the open ends of the pipe shall be closed by a watertight plug or other means. When practical, the plug shall remain in place until the trench is pumped completely dry. Care shall be taken to prevent pipe flotation should the trench fill with water.

Trench width at the top of pipe, bedding conditions, and backfill placement and compaction shall be such that design loadings on the pipe will not be exceeded.

Joint Assembly: Pipe joints shall be assembled in accordance with the Manufacturer's instructions.

Pipe Deflection: When it is necessary to deflect pipe from a straight line from either a vertical or horizontal plane, or where long radius curves are permitted, the amount of deflection shall not exceed that recommended by the Manufacturer.

Pipe Cutting: Cutting pipe for the insertion of valves, fittings, or closure pieces shall be done in a neat, workmanlike manner, without creating damage to the pipe. Ends shall be cut square and perpendicular to the pipe axis. Burrs shall be removed from spigots and ends shall be smoothly beveled. Field cut ends shall be marked for proper depth of joint assembly.

Thrust Restraint: All plugs, caps, tees, and bends, unless otherwise specified shall be provided with reaction backing, or restrained joints as specified. Thrust-restraint design pressure shall be equal to 1.5 times the design pressure of the line. Vertical and horizontal reaction backing shall be made of Class I Concrete (miscellaneous).

N. Warranty

All work scheduled for completion under this contract shall be completed according to the requirements. Final acceptance by the City shall be after a three (3) month establishment period from the substantial completion date. Final project approval is contingent upon the Project Manager. Payment shall be made for the work completed and accepted upon initial inspection by the Project Manager. **Retainage in the amount of ten percent (10%) of all work completed will be withheld from the payment.
